From 1972 to 1975, transiting Chiron made a series of oppositions to natal Saturn and a series of conjunctions to natal Chiron in all of the July 1776 charts for America. These aspects triggered wounding, healing, and transcendence, and the major story during this period was the Watergate scandal, and the work of the Senate's select committee to investigate President Nixon and that scandal was one of Congress' finer moments. Also, the environmental movement and **Roe v Wade** were in the news.

We are now experiencing both astrologically and in terms of events over the years from **2022 to 2025**, things that are similar to what we saw in the seventies. So far during this period we've seen the transcendent work of the January 6 Committee and ongoing investigations and indictments of Donald Trump. Also, climate change and **Roe v Wade** are in the news. If history doesn't repeat itself exactly when astrology repeats, at least it often rhymes. **Chiron and America 2022 - 2025**

Also, even though Saturn has moved on and Pluto has moved into Aquarius, the positions of most of the outer planets are approximately the same as they were during the eclipses of October 2023. Thus, the spring of 2024 may see either a continuation of events from October 2023 or new events that are along the same lines.

Transiting Neptune square Natal USA Venus

Transiting Neptune was square natal Venus when the confederacy started the American Civil War on April 12, 1861, with an attack on Fort Sumter and when the Japanese attacked Pearl Harbor on December 7, 1941. Will America experience violence again in the summer of 2024 or in 2025 or 2026? Or will any tensions just be a prelude to the volatile Uranus return in America's chart in 2027-2028? I don't know but keep an eye on this possibility!
