

IRAN ATTACKED!

**A 100-YEAR HISTORY OF
SATURN/NEPTUNE
CONJUNCTIONS AND IRAN**

Past Saturn/Neptune conjunctions and Iran

- Saturn was conjunct Neptune on July 31, 1917. This conjunction was preceded by a Lunar Eclipse on July 4 and a Solar Eclipse on July 18. This was the year the Persian Famine began (1917-1919) that killed about 2 million people.
- The 1953 coup d'état from August 15-19 that was backed by the U.S. and the U.K. restored power to Mohammad Reza Pahlavi as the Shah of Iran. This followed the Saturn/Neptune conjunction on July 21, 1953, and there was a Solar Eclipse prior to this conjunction around July 10 and another one on August 9.
- The rise of modern Iran and the Ayatollah Khomeini that occurred on February 11, 1979, coincided with critical transits to the July 21, 1953, chart for the previous Saturn/Neptune conjunction.
- The Ayatollah Khomeini died on June 3, 1989. This was preceded by a Saturn/Neptune conjunction on March 3, 1989, and there was a Lunar Eclipse on February 20 and a Solar Eclipse on March 7.
