

SEFER YETZIRAH 4.5

משנה ה': שבע כפולות בג"ד כפר"ת שבע ולא שש שבע ולא
שמונה בחון בהם וחקור בהם והעמד דבר על בוריו והשב יוצר על
מכונו:

4.5: Seven Doubles: BGD KPRT Seven and not six
Seven and not eight Examine with them And probe with
them Make [each] thing stand on its essence And make
the Creator sit on His base.

(Rabbi Aryeh Kaplan translation)

4:5 Seven doubles bet-gimmel-dalet-kaf-peh-resh-tav.
Seven and not six, seven and not eight. Examine with
them and explore with them, and stand each word and
thing on its wellspring, and return the Assembler to its
base.

(Doc Benton translation)

As we were told earlier regarding the *sefirot*, we should use the qualities represented by these letters to examine and explore reality with the goal of returning every perception to its source and establishing the *Assembler* on its base by realizing the true role of the observer in perception.
