

**THE LUNAR MONTH**  
**APRIL 8 – MAY 7**

## OVERVIEW

- This will be a very pivotal lunar month! It begins with a powerful solar eclipse on April 8<sup>th</sup> where the Sun, Moon, and Chiron will all be exactly conjunct at 19 degrees, 24 minutes, of Aries. Some will be wounded, some will heal, and some will transcend. In particular, America, the Middle East, Putin, members of the British Royal Family, and Pope Francis will all be impacted. They will be covered by me in another PowerPoint presentation on the lunar month for countries and people.
- A conjunction between Mars and Saturn on April 10<sup>th</sup> could express itself as either frustration that leads to violence or as a restriction on violence. This conjunction occurs in Pisces, and neither planet is at its best there. An optimal outcome would be a formulation of strategies and actions for peace.
- The April 20<sup>th</sup> conjunction in Taurus of Jupiter and Uranus could stir both technological breakthroughs and rebellion.
- Also, on April 20<sup>th</sup> there will be a Chiron return in the USA chart, but I'll say more about that in my video on "countries and people."
- A semisquare between Saturn and Pluto could raise tensions in the latter part of April and the first half of May.
