

THE LUNAR MONTH

MARCH 10 – APRIL 8

OVERVIEW FOR LAST LUNAR MONTH

- A persistent sextile between Jupiter and Saturn will help to create a balance between growth and regulation through the first part of March.
- The February 19th conjunction of Chiron with the North Node can intensify wounding, healing, and transcendence throughout the year as a consequence of the intensification of the transcendent energy that Chiron represents.

Alexei Navalny dies in a Russian prison – 2/16/2024

- The period around February 7th will feel good as a result of Mars sextile Neptune.
- Tensions will rise around February 13th as Mars conjuncts Pluto and again around February 27th as Mars squares Jupiter.

Israeli airstrikes kill over 100 people in Rafah – 2/11/2024

Over 100 people in Gaza die from stampedes or clashes with the IDF as a convoy of trucks attempts to deliver aid to Gaza – 2/29/2024

- Tensions will ease again around March 4-6 as Mars sextiles Chiron and the North Node but then rise again around March 9 as Mars squares Uranus.

To be determined – 3/3/2024

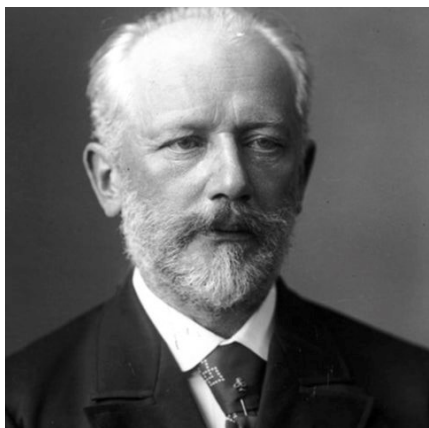

Transits NATAL CHART

Transit to Transit:

2024	Mar	Apr
$\Omega \curvearrowright \mathfrak{L}$ (17 Υ 16, 17 Υ 16) $\mathfrak{L} * \mathfrak{L}_2$ (10 \mathfrak{L} 01, 10 \mathfrak{L} 01) $\mathfrak{L} \curvearrowright \mathfrak{L}_2$ (21 \mathfrak{L} 49, 21 \mathfrak{L} 49) $\mathfrak{L} * \mathfrak{L}$ (21 \mathfrak{L} 32, 21 \mathfrak{L} 32) $\mathfrak{L} \curvearrowright \mathfrak{L}_2$ (14 \mathfrak{L} 40, 14 \mathfrak{L} 40) $\mathfrak{L} \square \mathfrak{L}_2$ (19 \mathfrak{L} 51, 19 \mathfrak{L} 51) $\mathfrak{L} * \mathfrak{L}_2$ (21 \mathfrak{L} 45, 21 \mathfrak{L} 45) $\mathfrak{L} \curvearrowright \mathfrak{L}$ (28 \mathfrak{L} 51, 28 \mathfrak{L} 51) $\mathfrak{L} * \mathfrak{L}_2$ (2 Υ 06, 2 \mathfrak{L} 06) $\mathfrak{L} * \Omega$ (16 \mathfrak{L} 03, 16 Υ 03) $\mathfrak{L} * \mathfrak{L}$ (17 \mathfrak{L} 32, 17 Υ 32)		
2024	Mar	Apr

NOTES

- The Jupiter/Saturn sextile will fade soon after the New Moon.
- Chiron was conjunct the North Node on February 19, 2024. This conjunction intensified the energy of Chiron resulting in wounding for some but also a release of a sweeter more transcendent energy that others will have responded to.
- Chiron is very prominent this year because at the time of the April 8, 2024, Solar Eclipse, the Sun, Moon, and Chiron will all be exactly conjunct at 19 degrees, 24 minutes, of Aries. Countries and people that may be directly affected by this eclipse are America, Biden, Trump, Israel, Netanyahu, Hamas, Iran, Putin, Russia, King Charles III, the United Kingdom, and me!
- America will experience three Chiron returns over the next 12 months – April 20, November 9, and February 17, 2024.
- Mercury will enter its retrograde zone on March 16, turn retrograde on April 1, and turn direct on April 25, and leaves the retrograde zone on May 13.
- There is a Lunar Eclipse on March 25 and a Solar Eclipse on April 8.

This year is a good time to watch the movie “Everything, Everywhere, All at One” and to listen to the beautiful music of Tchaikovsky. This movie represents the higher, spiritual warrior side of the Jupiter/Chiron conjunction that occurred in Aries on March 11, 2023, and the very next day this movie swept the Oscars. Also, it is no cosmic accident that this movie has now become available on Netflix just after the Chiron/North Node conjunction on February 19 and just before the April 8 Sun/Moon/Chiron solar eclipse conjunction. Additionally, Tchaikovsky is a composer strongly impacted by Chiron in his natal chart, and much of his beautiful, transcendent music was composed following a Sun/Moon/Chiron solar eclipse conjunction in Aries on April 5, 1875. Listen to Tchaikovsky, save the world!

NOTES

- The semisextile between Chiron and Uranus is a waning semisextile that lasts from the second half of March until mid-June, and it doesn't become exact until June 12, 2036.
- Chiron was last conjunct with Uranus in 1898, and in that year Madame Curie discovered radium and in the following year Earnest Rutherford discovered alpha and beta rays. The atomic age began! The next conjunction will take place on November 14, 2042 with additional conjunctions on Jan 1 and June 14 of 2043. What new creative breakthroughs will we see at that time?
- In Fall of 2024, there will be an extended sextile between transiting Jupiter and Chiron that will last from mid-September until the end of November, and in USA 1776 charts the sextile between transiting Jupiter and natal Chiron will last from the end of August through November. Also, in the USA July 2, 1776, chart for the passage of the Resolution for Independence, this sextile will be exact on September 11 and November 5, and the sextile will be exact between the transiting planets on October 12 and November 3. This will bring in a sweeter, more transcendent energy that the world is desperately in need of.

OVERVIEW

- There is a lack of both long lasting hard and soft aspects by outer planets this lunar month. This includes conjunctions, squares, oppositions, sextiles, and trines. As a result, things in many ways might seem a little quieter this lunar month. Nonetheless, even if things are quiet globally, there will be a lot going on locally with various people and countries.
- There is a square between Mars and Uranus right before the New Moon on March 10, and this could result in some sudden accidents or aggressive actions throughout the lunar month.
- However, once the lunar month begins, then, excluding the Moon, only conjunctions, sextiles, and inconjuncts from the Sun, Mercury, Venus, Mars, and Jupiter to other planets will take place.
- Mercury will move into Aries right before the New Moon, and the Sun, Moon, Venus, and Mars will make some sign changes this lunar month, and Mercury will turn retrograde at 27 degrees, 13 minutes, of Aries on April 1.
- Even though there are no hard or soft aspects among the outer planets this month, there will be several semisextiles, and this suggests that March will be a month of adjustment, change, and compromise.
