

**THE LUNAR MONTH FOR THE  
WORLD, AMERICA, AND  
TRUMP**

**MAY 16 – JUNE 14**

## Summary:

### World

- This lunar month begins with aggression (Mars/Saturn conjunct), wounding (Sun/Moon/Chiron conjunct), and confusion (Mercury/Neptune conjunct)
- An abundance of septiles throughout the lunar month will keep people alert and focused on whatever events are unfolding.
- There will be a variety of tensions of various sorts throughout the month, but most of them will be of short duration.
- The end of the lunar month will be more worrisome due to a conjunction of Mars with Chiron that can result in wounding from accidents or aggression.

## Results:

### World

- Since the beginning of the lunar month, the world has seen in the war with Iran escalating military confrontation, stalled ceasefire negotiations, intensified domestic repression, expanded regional entanglements, and major global economic effects. The world has been in a constant state of alertness and focus because of this situation, and a shortage of jet fuel is causing many airlines to have to adjust.
- The only silver lining is that Trump stopped short of his threat to bomb Iran back to the stone age, and that led to a shaky ceasefire and attempts to negotiate an end to hostilities.

## Summary:

### America

- The country's fervour for war or revolution is waning (Lunar Nodal Axis in separating square to natal Uranus).
- The power of the United States and its people or leader, will be wounded (Sun/Moon/Chiron square natal Pluto).
- Relationships with other countries will be both aggressive and strained (Mars/Saturn conjunct Descendant).
- Aggressive activities will expand (**Jupiter square natal Mars**, Mars square natal Sun).
- Social transformation is underway (Pluto conjunct natal South Node).
- America may be wounded through violence in the second half of the lunar month (Mars conjunct natal Chiron, Mars/Chiron square natal Pluto).
- The country and the executive branch will feel constrained by the end of the lunar month (Saturn square natal 10<sup>th</sup> House Sun).

## Results:

### America

- Sixty-five percent of Americans disapprove of Trump's war with Iran.
- America, its people, and Trump have been noticeably weakened by the war with Iran. Control of the Strait of Hormuz is currently in the hands of Iran, Trump's approval ratings have plummeted in the polls, and people in America and elsewhere are suffering economically.
- Meanwhile, there have been sporadic outbreaks of violence between Iran and America, and mass shootings and assassination attempts within America.
- Furthermore, much of America's supply of missiles and munitions have been significantly reduced, and American power is now constrained in ways that it hasn't been in the past.
- The various pressures now on America, both political and economic, will undoubtedly bring about social change.

## Summary:

### Trump

- Trump's actions will be chaotic, spontaneous, unpredictable, and frequently flip-flopping throughout most of this lunar month due to transiting Uranus squaring natal Ascendant.
- Transiting Jupiter square natal Jupiter may result in many over the top actions and an inflated sense of power.
- A series of adverse aspects from Saturn and Mars can result in frequent periods of frustration and outbursts of anger.
- A sesquiquadrate from Pluto to the Lunar Nodal Axis could intensify Trump's desire for power.
- A trine from transiting Chiron to natal Mars will help Trump heal physically.
- Saturn trine natal Pluto in the second half of the month will help Trump consolidate his control and power.

## Results:

### Trump

- Much of what was predicted for Trump has come to pass.
- He has constantly flip-flopped such as announcing one day that American warships will safely guide ships through the Strait of Hormuz and then cancelling that policy the following day (Operation Freedom).
- He has shown his inflated sense of power through a gold statue of himself at Trump National Doral Miami and his attempt to name an airport in Palm Beach after himself. He also posted a much criticized meme of himself as Jesus.
- There have also been several reports and videos of frequent outbursts of anger by Trump.
- Nonetheless, Trump's end of the lunar month trip to China gives him an opportunity to once again appear presidential and as a leader.

### America

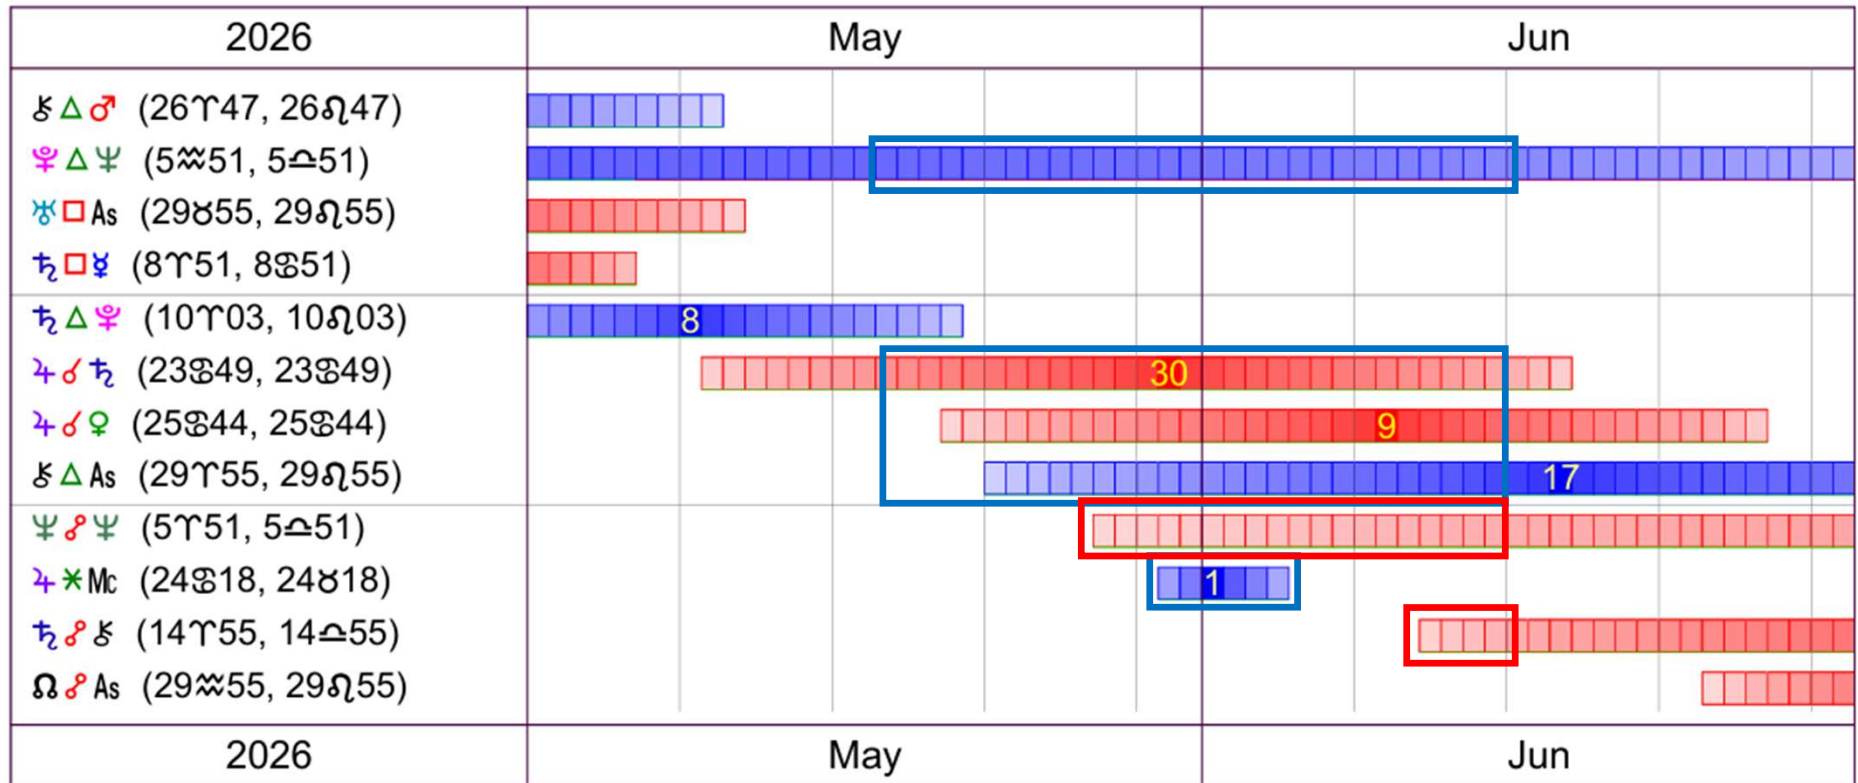

- Pressures for social change will continue (t. Pluto conjunct n. Lunar Nodal Axis).
- Restraints on America, Trump, and the executive branch will be present from the beginning of the lunar month through the end of May (t. Saturn square n. Sun).
- There may, however, be some good news related to commerce, travel, and the economy throughout the lunar month (t. Jupiter conjunct n. Mercury).
- There could be either inflation or euphoria during the week centered around May 22 (t. Jupiter conjunct n. Neptune).
- The last week of May through the rest of the lunar month could see a disconnect between the actions of the executive branch and the feelings and health of the people (t. Jupiter in the 10<sup>th</sup> House opposite n. Moon).
- There will be a disconnect in the last week of the lunar month between the executive branch and the people's power (t. Jupiter in the 10<sup>th</sup> House opposite n. Pluto in the 4<sup>th</sup> House).
- From the last week of this lunar month through most of August, America will begin to reap what it has sown (t. Saturn opposite n. Saturn).
- Some sort of silver lining that is healing and that will last through most of September will begin to emerge during the last two days of the lunar month (t. Chiron sextile n. Venus).
