

THE LUNAR MONTH
MAY 7– JUNE 6

REVIEW OF LAST LUNAR MONTH – APRIL 8 TO MAY 7

- This will be a very pivotal lunar month! It begins with a powerful solar eclipse on April 8th where the Sun, Moon, and Chiron will all be exactly conjunct at 19 degrees, 24 minutes, of Aries. Some will be wounded, some will heal, and some will transcend. In particular, America, the Middle East, Putin, members of the British Royal Family, and Pope Francis will all be impacted. They will be covered by me in another PowerPoint presentation on the lunar month for countries and people.

As feared, tensions between Israel and Iran increased this month due to the impact of the eclipse on each country. Meanwhile, in America, Chiron returns often manifest as political wounding, and two days after the April 20th Chiron return for America we saw the beginning of a criminal trial involving Donald Trump.

- A conjunction between Mars and Saturn on April 10th could express itself as either frustration that leads to violence or as a restriction of violence. This conjunction occurs in Pisces, and neither planet is at its best there. An optimal outcome would be a formulation of strategies and actions for peace.

Fortunately, America got Israel to show restraint in its response to the attack by Iran, and Iran recognized that a direct war would not be in its best interests either.

- The April 20th conjunction in Taurus of Jupiter and Uranus could stir both technological breakthroughs and rebellion.

The achievements of AI continued to grow by leaps and bounds including the worrisome ability to produce incredible “deep fakes.” Other tech news has received less reporting but is equally impressive. Commercial nuclear fusion may become a practical source of energy within ten years, and scientists have made light waves stand still. Also, widespread student protests in America have followed this conjunction.

- Also, on April 20th there will be a Chiron return in the USA chart, but I’ll say more about that in my video on “countries and people.”

As mentioned above, the USA Chiron returns often result in wounding at the political level, and the first criminal trial of Donald Trump began the Monday after the Saturday conjunction. Additionally, the U.S. Supreme Court seems more partisan than ever.

- A semisquare between Saturn and Pluto could raise tensions in the latter part of April and the first half of May.

This semisquare has exacerbated student protests in America, and there are tensions mounting not only over Gaza but also over the Supreme Court and the Trump trial.

OVERVIEW – MAY 7 TO JUNE 6

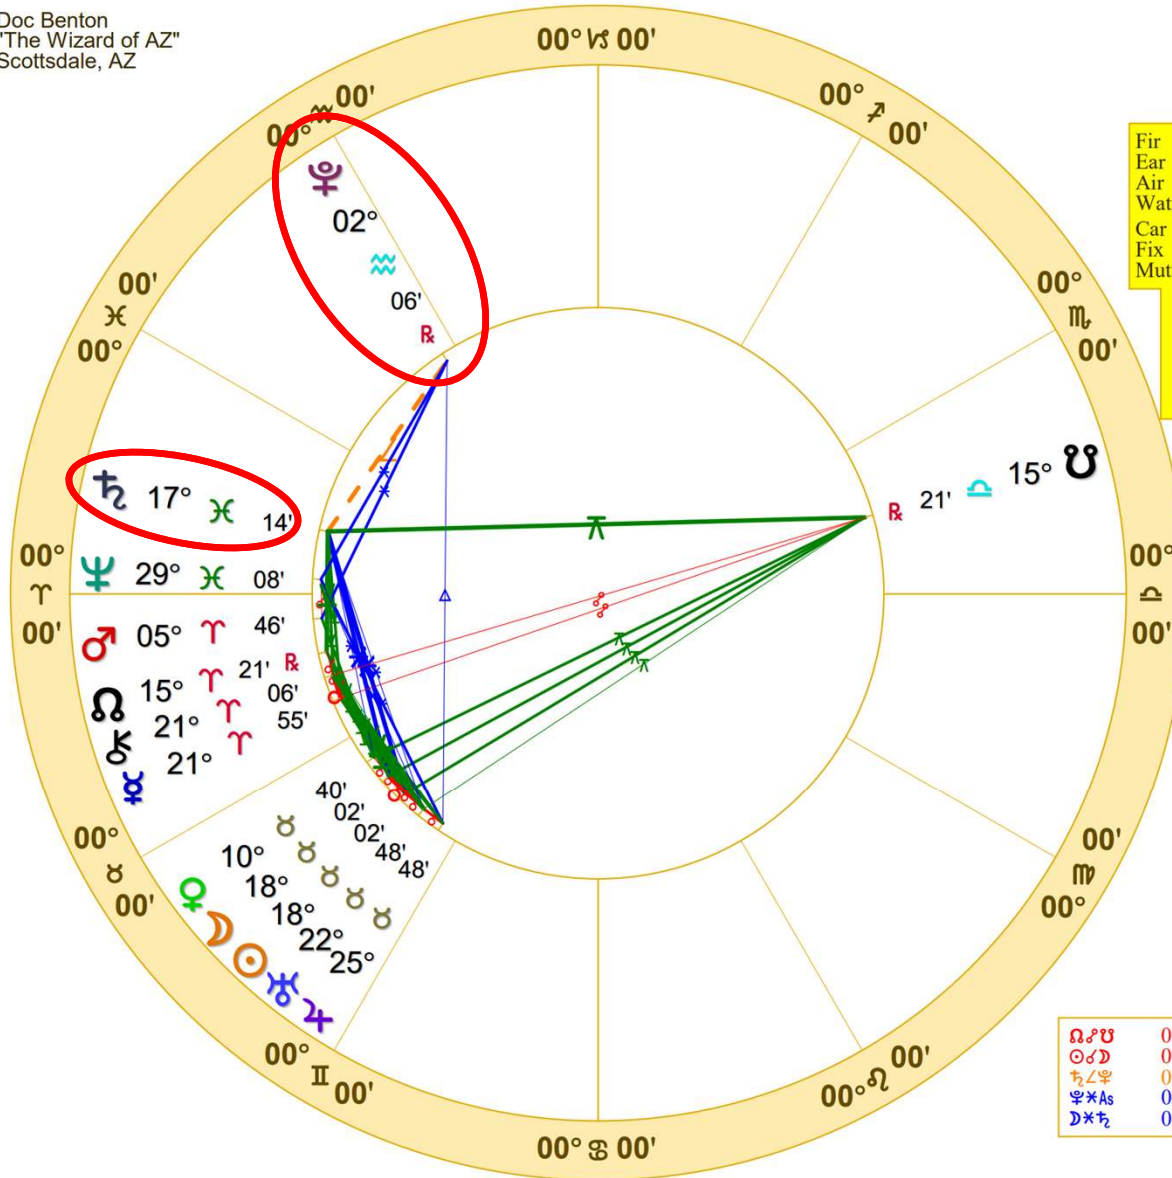

- Tensions in the world will remain heightened through mid-May and a little beyond as a result of the semisquare between Saturn and Pluto.
- The second half of May will see more optimism, though, as a result of a sextile between Jupiter and Neptune.
- A trine between Jupiter and Pluto from the last week of May through the first week in June will probably coincide with even more technological breakthroughs and efforts to address humanitarian concerns.
- A conjunction of Mars with Chiron in the last week of May, however, could manifest as more wounding for the world. The best outcome, though, would be not violence but the rise of true spiritual warriors who seek enlightenment over war. A lesser outcome would be false spiritual warriors who are driven by religious or political fanaticism.
- An emerging “mini-grand trine” between Jupiter, Pluto, and Neptune that culminates in early June will bring more technological growth, vision, optimism, and humanitarian concerns to the forefront this month.
