THE LUNAR MONTH FOR AMERICA

June 14– July 14

Last Month Review

Summary:

America

- Pressures for social change will continue (t. Pluto conjunct n. Lunar Nodal Axis).
- Restraints on America, Trump, and the executive branch will be present from the beginning of the lunar month through the end of May (t. Saturn square n. Sun).
- There may, however, be some good news related to commerce, travel, and the economy throughout the lunar month (t. Jupiter conjunct n. Mercury).
- There could be either inflation or euphoria during the week centered around May 22 (t. Jupiter conjunct n. Neptune).
- The last week of May through the rest of the lunar month could see a disconnect between the actions of the executive branch and the feelings and health of the people (t. Jupiter in the 10th House opposite n. Moon).
- There will be a disconnect in the last week of the lunar month between the executive branch and the people's power (t. Jupiter in the 10th House opposite n. Pluto in the 4th House).
- From the last week of this lunar month through most of August, America will begin to reap what it has sown (t. Saturn opposite n. Saturn).
- Some sort of silver lining that is healing and that will last through most of September will begin to emerge during the last two days of the lunar month (t. Chiron sextile n. Venus).

Results:

America

- The past lunar month saw both national and local protests against data centers and their negative impacts on finances and resources.
- Since late May there have been daily protests against the Delaney Hall ICE detention center in New Jersey.
- Inflation data released in mid-May showed a monthly increase of 0.6% for April and an annual increase of 3.8%, up from 3.3% in March. The data for May released on June 10th shows an annual inflation rate for May of 4.2%.
- The U.S. stock market saw a dramatic rise in value starting around the beginning of the lunar month, but a dramatic fall on June 5 wiped up much of the recent gain.
- It was announced on May 19 that the U.S. has secured **over 20 new trade deals** with major global partners.
- Around May 29, it was reported that America is close to finalizing a trade deal with India.

Results:

America

- Polls indicate that most Americans disapprove of Trump's planned ballroom, triumphal arch, and the UFC fight on the White House lawn. Additonally, there is great dissatisfaction with the war with Iran, inflation, and the $1.776 billion so-called Anti-Weaponization Fund created in a settlement between Trump and the DOJ but which has now been blocked. Also, about 68.8% of Americans disapprove of Trump's handling of inflation.
- Many analysts feel that the country is in a box with few options when it comes to Iran, but there is a hope that a "memorandum of understanding" will be signed soon and lead to more stable conditions.
- On a personal level, I am feeling the effect of t. Chiron sextile n. Venus as well as the minor grand trine being formed by transiting Uranus, Neptune, and Pluto, It seems as if I am seeing more and more people in America who are tired of the ongoing animosity and who want kindness to others to return

- The first week of the lunar month may be favourable for trade, the economy, and/or the executive branch. (t. Jupiter conjunct n. Mercury in the 10th House)
- Much of the second half of June may see conflict between those in power and individuals and families that just want a little growth and security. (t. Jupiter opposite n. Pluto).
