Trump issues a threat to invade Iran if they close the Strait of Hormuz, following Iran's claim of its closure due to Israeli strikes in Lebanon. He warns that they **"won't even make it back to their f*cking country,"** suggesting a potential threat against Iranian negotiators in Switzerland. -June 21, 2026 (Wikipedia)

Conclusions

Conclusions:

- Tensions will increase in the world from roughly November 10-18 (Mars/Jupiter conjunct Lunar Nodal Axis).
- Tensions may peak at the time of the 1st Quarter Moon on November 17 when the Sun and Moon will turn the Mars/Jupiter/Lunar Nodal Axis conjunction into a t-square,
- Iran will see an increase in difficulties in October and November.
- American power, the power of its leaders, or the power of its people will be wounded from late October through November.
- America will be in danger of experiencing more aggression that culminates around November 15 (progressed Sun square natal Mars).
- The turnout for the November 3 elections might be higher than usual (transiting Mars trine natal Chiron and sextile natal Mars).
- Trump will likely be very angry and frustrated following the midterm elections (multiple adverse transits involving Mars and Saturn).
- The difficult November 17 First Quarter Moon will strongly affect and likely greatly anger Trump.
