Accepting quiet support is the key to getting your way without forcing the issue. Spread the burden, share the load, and lead the way. The hunt for objects of desire is in full swing for a few weeks, so expect some very intense satiation all around. It doesn't show much on the surface, but when the doors close and the shades go down, it's all the way - literally or figuratively. Dipping your toe in is not what's happening now, so beware if you try to -- you may be pulled in headlong with the rest.

Messages of faith are truthful, and mutual trust in everyday matters is what great friendship is all about. The sure knowledge that all will be well in the end is the very author of good endings. Know you're right, then go ahead. Words of support are there at your side, along with the information you need.

Still waters run deep, but only when you can get below the surface. The coming month's theme may be probing the depths, or seeming to, while keeping out distracting disturbances. That makes for high intensity when you're inside someone's door, or they're inside yours, but complete mystery when you're/they're not.

life for someone to show that you are a firm supporter. Put your energy where you know it will count and build and it will come back to you. It is not a single action but the sum of many that will tell the tale.

Faith and self-assurance are what will sell you right now, and if you believe in yourself, others will too. Envision the future as you would have it be, and so it shall become. In fact, if you're really good at it, others will do it for you because they will consider it a done deal, an already established fact.

Don't try to think too far ahead about how to dole out your energies, or you'll get ahead of yourself. Figure it out one step at a time, don't run full out when you can jog easily along. Plan the next set of laps at every pit stop and all will run smoothly. Conservative planning will assure success.

Less is more for a few weeks, and you'll find people paying for it that way, as well. Small servings are sufficient, simple but pure flavors are the best - in people as well as food. If you're not wearing basic black, you're probably overdressed, at least as far as others are concerned. Keep it simple or sit it out.

	When you're asked to explain it for the third or fourth time, it may be time to give up. Brain drainers who want to tap your ideas right down to the bottom of the keg should be put off -- hit that cutoff valve and save some for later. You needn't be rude, just say enough is enough and tell them to come back for more later.

	Trying to explain your way out of a hopeless situation is in itself hopeless, so don't waste the effort. If things get just too lost and confusing, pull out and try something else. rate of progress just to make a point. Good enough is sufficient -- when you're that far, move on to the next challenge. Details fought over now will iron themselves out later, so don't waste too much effort on them.

This must be "growing awareness month," starting at zero for most, so if the general atmosphere is clueless, join right in. It's all about feeling your way, with a lot of counterfeit options crowding around the ultimately real path ahead. Follow your feelings (yours, not others'), once you've confirmed them a couple of times.

	Passions run high for the next few weeks, with flashes of intense desire suddenly trailing off into satiation or ennui. So if you're looking for intensity, now's the time to jump into the pool - but commitment after you're there may be hard to hold on to. Hunger pangs, once fed, lose their urgency.

	A word to the wise: getting the final word on anything will be virtually impossible, and no matter how tight your argument, loose ends turn up that won't be silenced. Go for the first word, and stick with positive words, but leave the last word for later. When things expectedly get over tangled, your response should be, in a word: enough!

	It may be difficult to communicate your inner message, and sometimes trying to explain it to death just makes it worse. If you can't get yourself heard on one issue, drop it and try another. Carping on about the same subject will just get annoying for everyone. Better to be partly understood and leave it at that.

The next couple of years will produce the end of many illusions and hard times for those who perpetrate them. Matters of unconfirmed belief are likely to be tested, and those who have relied on intuition alone to get by may have to take a more tangible and practical approach. Real and imagined spirituality are set side by side to see which passes the test.

	Everybody's going to be quick-witted for a few weeks, or at least will be giving it a try, which means foot-in-mouth syndrome escalates, as people speak before they think. Nevertheless, there's a sharpening of minds that cuts waste and makes for rapid-fire unfoldment of ideas. Follow-through after the onrush will be the challenge.
