This is an excellent time for whipping up great faith in whatever new trip you are onto, regardless

of its apparent merits. Faith is the operant word here, for if you instill enough of it yourself and inspire enough of it in others, you can succeed where you probably wouldn't or shouldn't otherwise. Basically, your personal or financial success (it can be either) can hang on your ability to generate a deep feeling of trust and the inevitability of what you believe to be the right course. That's what people are looking for right now. If you can make your belief theirs, then you can take a ride together and you won't have to sell anymore. And when you pull together with the abiding knowledge of success, it's a lot more likely to happen.

 Patient energy applied over time brings the best solutions at the lowest cost. Don't worry about instant answers -- there aren't any -- just keep at it and all will become clear before you know it. Haste makes waste, slow and steady win the race. When you think things through and then follow through, you're the winner.

Jupiter Enters Aries
 The coming year witnesses a shoot-now-ask-questions-later approach to new developments all around, in which the tendency is to jump onto new bandwagons before you check to see if they have wheels. There's a feeling of racing ahead into the future, but to where, really? Catch the tide, but keep your eyes open, ask questions.
