#### Mercury Stationary Retrograde in 08th House

If you can spend the next three weeks redeploying your debts and reallocating resources, you will not regret it. In fact, it may simply be a necessity to pick up loose ends and take a second look at whether you are unnecessarily overextended. With a little tweaking, you could be sitting in the catbird seat, but you'll need to test the wind to get some height. Pick up on assets you've neglected or forgotten about, and you'll have all you need. Make new friends, but keep the old; one is silver, but the other's gold -- in ways you hadn't even thought about.

#### Mercury Square Saturn (Retrograde)

You may feel mentally depressed or restricted. Perhaps this is not the time to try to solve any serious problems or make important decisions. It could be hard to think.

#### Mercury Sextile Mars (Retrograde)

Your mind is quick and sharp, and your words are the only weapon you will need today. You have insight into your emotions and drive, and you can talk about your feelings with great insight and fluidity.

#### Mercury Stationary Direct in 08th House

The last few weeks' complexities and contradictions begin to clear up and you've turned a corner on finding out what you can get elsewhere and what you can provide yourself. If you need to borrow, it will be in the cards, but you may equally find that a little inventory of your past resources will reveal you've actually got all you need if you try out a new way to tap it.

Brilliant ideas that seemed elusive are headed back into the pipeline but will still need a little sorting out before you can bring them to fruition. Putting previous obstacles behind you will give you the chance.

For the next three weeks you may feel like you're waiting for things to come together, but you don't know exactly what they are. Kind of like watching a row of seeds you've planted -- you hope something is happening, but it's hard to tell. Events for you are, in fact, restructuring themselves behind the scenes, and you may be in for some surprises when all is resolved. Your best course is to make as few assumptions as possible and don't bet on the same old horses. Be open to your own intuitive hunches and be ready to jump aboard a new bandwagon when it suddenly materializes. It may come from closer than you think and from those you might have taken for granted.

If loss of communications has left you clueless, you can start collecting more reliable evidence again. When exterior sources fail to provide the information you need, you may have to rely on your inner resources and come to your own conclusions without external input. However, if you can avoid tying yourself down, that would be a better choice, as things may be going on without your knowledge that will surface soon and give you a better handle on your operations. When the mist clears, you'll have the opportunity to really make yourself seen and heard.

#### Mercury Stationary Retrograde in 05th House

Playful creativity can be a hallmark of the next three weeks, but only if you are willing to let it take its course wherever it leads. Don't expect to follow a straight track but go where things lead you until you start to establish a pattern. Only then can you get back to the main highway after an enlightening detour onto the scenic route. Don't be surprised if this muddies previously held opinions toward the end, as the new alternatives you will be finding will more than make up for any inconveniences or confusions experienced along the way.

A period of some delays, detours, and slowdowns has turned the corner and with a little more fine-tuning life operations will be not only back to normal but improved. Issues having to do with direction and creative focus begin to resolve themselves and turn out to have been only temporary delays, not fundamental problems. Once you have buttoned down the last of the recently arisen distractions, you can put your mind fully on the game and get back to being the you you always thought you were, only better. The exercise provided by internal troubleshooting and introspection brings you back stronger than ever.

What seemed like mistakes were simply different roads to the same destination and it's clear that keeping your eye on the ball and not on the pitcher is the only way to go. Resolving differences is the surest way to a strong partnership, especially when driven by a common goal. You can look forward to a backward look that may give you a boost in the coming month or so, so keep those eyes in the back of your head wide open. Rome wasn't built in a day, and neither will much else be during this period. For you, getting the foundations right will be the most important achievement, but you may have to try, try again before that becomes a done deal. Getting your inner priorities right so you don't start off half-cocked is really important, so think it through and consider all the repercussions before you take action. Even then, be willing to patiently rework it if need be. The test of success here is not a hot launch, but seeing it all safely home in the end. And remember, others are involved and can throw you off, so be careful.

You are pulling out of a period that may have involved a lot of pointless thrashing about, mixed efforts involving multiple channels that required more effort than they were worth. That was unavoidable, but as you finally select who you want to deal with and what ideas to run with you'll find that you can pick up speed and really put the pedal to the metal. The key concept here is focus, as the greater pressure you apply in the area of your choice, the greater your acceleration will be. This will lead to forward developments in your bottom line and a clearer idea of what you stand for when day is done.
