Mars Stationary Retrograde in 08th House

This is not the most ideal period to try for a loan or lean on other people's resources to get you through -- you may find that slow going and not terribly rewarding. If you can see it through on your own, do so, if only by recycling what you've got and waiting for a clearer picture of where things are going. Inner reconstruction beats buying on the open market -- when you bank with yourself, the interest rate can never be too high. Rekindling a relationship may be part of what sustains you -- look for the wind under your wings and you won't have to flap them so hard.

Mars Sextile Pluto (Retrograde)

A drive to probe and penetrate may find you examining and working through some strong internal changes. Push too hard and you could be too dominating, even oppressive, to yourself and others.

Mars Sextile Midheaven (Retrograde)

You have a lot of energy to pour into practical and career decisions. You may appear commanding and assertive.

2022-11-24 07:51 am 21° II 10' Rx ♂ Δ ♀

A strong drive to unify and simplify. You want something more imaginative and less mundane. A yearning for other worlds and for some more cosmic form of love.

Irresistible force meets immovable object. Proceed with caution! There is a lot of energy available for disciplined work, but push too hard and you may break something.

You may be especially dynamic and assertive just now. There is a lot of energy and drive available.

Finding headway where needed credit and outside support are concerned may lately have turned into a comedy of errors -- not so amusing, but times are changing and the last laugh is still ahead. Where you have met with diminishing returns, back off and run with a single new plan that will be more worth the extra effort. Where you put the extra is everything -- don't spread it around, focus it. You're more likely to get what you really push for than what you simply toy with. Point the backing you seek toward new directions you'd like to power and others will more easily sign on for the ride.

The next three weeks may well mark a lot of ebbs and swirls in the social fabric you move in, with associates backing and filling and sometimes seeming less than reliable. No blame here, just a general reshuffling until everyone feels comfortable with their positions, including yourself. Try to work on removing obstacles to the flow and diplomatically shift your schedule according to who better fits your evolving agenda. Toward the end, you may have to call into question some aspects of your financial underpinnings in order to effectively make contact and cause others' goals to come into step with your own.

Several weeks of greater confusion than you'd have liked are on their way out and you can get back to what you were doing with a bit more confidence and sense of purpose. Getting roadblocks out of the way allows you to chart a surer course and feel better about what you are doing and what kind of commitments you can make and live up to. Sometimes assumptions about those most close to you can turn out to be misperceived, and the next three weeks gives you a chance to take a second look. You can nip problems in the bud and smooth potentially ruffled feathers, including your own, where things have been taken for granted and are slowing down progress. Mending ties to others can make for stronger relationships if you are ready to address small problems and so prevent them from growing. In the same way, good fences make good neighbors, and keeping your own integrity may be part of it, so don't do others' jobs, but let equality have play.

What seemed like mistakes were simply different roads to the same destination and it's clear that keeping your eye on the ball and not on the pitcher is the only way to go. Resolving differences is the surest way to a strong partnership, especially when driven by a common goal. You can look forward to a backward look that may give you a boost in the coming month or so, so keep those eyes in the back of your head wide open. Tomorrow's prize lies in the hand of another, so be ready to shake it.

What you would like others to think about you can become a focus in this period. What is your reputation worth -- and, in fact, what is your reputation, anyway? The surest way to attain success is to define it well to begin with -- you can't get what you want if you don't know what it is. You may discover that what you are worried about not attaining is actually not what you want to attain in the first place, clearing the decks for real personal success. In the end, willingly redefining goals and clarifying expectations can make this a time that will both bring forth fruit and plant the seeds for another crop.

Who controls what you want? Do you? Sometimes it's hard to say, especially when you feel in competition with others for what you might be choosing on your own. Venus backing off your Pluto (it's happening to all your age mates) should make you realize that there's no real competition for what you really want, although keeping up with the neighbors could pull the wool over your eyes. When you back off initial confrontations, you may find that there's no real issue and, in fact, only common ground. Take the time to spell it out so everyone feels comfortable and on the same page.

If you thought you had your rep sewed up, break out the sewing machine. It's not so much repair as reformation, as maybe you weren't going for what you really wanted to begin with and you need to reshape your reputation in the image of your newly formed desires. Tune into the pipeline where stories about you are concerned and edit the storytellers. If you know what you want said, you can write the book -- now's the time to spend the time.

Portraying your overarching vision to others may have been hampered of late by uncertainties about just what that vision is. Once you have reconsidered where you'd really like to go, it's time to pick up speed and cut a broad swathe through life. You can pick up momentum by cutting away distractions and making a firm thrust in the direction of your choice. However, don't waste time basking in the limelight, but get in there and make hay while this sun shines -- as this, too, will pass. Let others drain themselves in the fray, while you shoot for bigger game and longer-term satisfaction.

What is a clear career decision (an easy solution) may go against your sense of values, how you feel about the matter. You may find yourself having to choose between your career and your sense of enjoyment, the things you love and appreciate.

The next three weeks may well mark a lot of ebbs and swirls in the social fabric you move in, with associates backing and filling and sometimes seeming less than reliable. No blame here, just a general reshuffling until everyone feels comfortable with their positions, including yourself. Try to work on removing obstacles to the flow and diplomatically shift your schedule according to who better fits your evolving agenda. Toward the end, you may have to call into question some aspects of your financial underpinnings in order to effectively make contact and cause others' goals to come into step with your own.

Mercury Conjunct Mars (Retrograde)

Mercury's about-face on your Mars could find you in a tailspin about just what to do with yourself and how to organize your energies to get things done. What you may find is that you have been regularly wasting effort in spots that give little payoff while neglecting areas of potentially high return. It's time to rebudget your available inner resources and only burn fuel on trips that get you somewhere you really want to go. Moreover, what frustrates can probably be dispensed with, even if it has seemed necessary before. Burn your candle at one end only and it will see you gladly to the morning's light.

Mercury Stationary Direct in 02nd House

Kinks, twists, and delays in financial matters are on their way out and a return to smoother sailing is in the works. Although delays may have been annoying, the resolutions they have brought will benefit you immediately and in the long run. Picking up loose ends and tightening your operation has lasting benefits, not only on your resources, but also on your opportunities to disseminate your ideas and expand your contacts and horizons. Any headway you may have lost is momentary and will be made up for by a smoother operation, a steadier course, and fewer distractions over the next several weeks. Tie up loose ends and be ready to move on to expanded horizons and a surer sense of your underpinnings.

Mercury Conjunct Mars

Just about the time you thought you could never get the right action agreed upon, and then Mercury goes direct on your Mars and you can be off and running -- if you choose to, that is. What opens up is the shot at more confident and focused ways of spending your energy, with greater likelihood of a real return on investment. By discarding some of the recent options that may not have panned out too well, you can say more specifically just what you are going to do and put all your power behind it. Do that, and you'll inspire others to follow -- everybody likes a good plan, so make it yours.
