	It may be time to heed the discoveries and inspirations of others, especially when they do not jibe with your own. Nothing educates like opposite opinions, though resolving them into a common vision takes time. Open your eyes now, put your ego on hold and give a serious listen. What you hear now may be part of what you will espouse later.

That of course includes taking the banal with the sublime, and if mixed tastes are not your style you may want to tread water for a while. On the other hand, there will be some dishes up for grabs you wish you'd known about earlier, so don't turn a blind eye.

Ideas for large-scale plans and optimistic blueprints for futuristic designs are waiting for the drawing board, so pick up on them and take the credit. You can sweat the small stuff later, because if you aren't in on the ground floor, small stuff may be all that's left available.

Those who hang on your every word can also hang you up and drain you dry without so much as a thank-you. If putting your dreams on display evokes criticism, keep them to yourself -- there's no need to see your visions trampled. Set them aside and let them mature and you'll soon find plenty to share and enliven them.

Emotional tête-à-têtes are just right for tea time, and sympathy abounds when you leave things unsaid and just go with the feeling. The small things in life give much support and pleasure, and savoring them costs little while giving and receiving quiet joys. Often it is what you overlook that holds you up.

Fortune smiles on health and wealth, but a little elbow grease to help it along will double your dividends. Take a free ride when it's offered, but be willing to do your part to make it easier for all. It will do your reputation good to be known as someone who remembers who helped when times were harder.

Steady emotional energy right now can make you a person to lean on, with enough get up and go to share. You're in there with a strong feeling, but to lead rather than overwhelm. Your reactions to the situation help act as a regulator that evens out rough edges while adding extra juice to the mix.

The regular flow of small but innovative solutions can keep things moving without having to come up with earth-shaking changes. You needn't disturb the status quo to integrate your personal touches. They will be accepted for what they are -- original, unique, and young at heart.

 This is a good time to introduce new ideas and concepts into an already ongoing situation -- ideas that spontaneously come from within. It is a time when your own inventiveness may be mined with some regularity, when you may call on the muse rather than waiting for her to call on you. Invest it wisely.

The idea of force is often more compelling than its actual use. You may find that a useful reminder right about now. When you clearly display that you know when it pays to push and shove and when it doesn't, you're most likely to avoid conflict entirely. Revolutions are won in the mind, not in the streets.

Conflicting messages about your reputation may have their origin in partner disputes and competitive jealousies. Try to resolve them, but don't look like you're trying too hard, or you'll have the reverse effect. If you can rise above the fray, do so, and any misconceptions will be straightened out by time and good will.

Expect a more open-handed game to prevail for the next month or so, as spontaneity suddenly becomes refreshing and a little fun and levity is more than welcome after a time of overrated self-seriousness. Previously raw nerves become more tickly and laughter bubbles out when you drop the dread of anticipation and just let it happen.

When you come to the fork, take both roads - that's the game for some time to come, as playing both ends against the middle is what everybody's trying to do. It takes twice the energy to invest in both sides of a contest, so activity is high and so is exhaustion. If you really know where you're headed, you don't have to play this round.

Taking smaller actions is preferable than making giant pushes. Nudge things along evenly and you'll find yourself actually picking up speed without getting pooped out. Enigmatic and cryptic comments should not be treated with suspicion, as they are probably compliments in disguise. Friendly messages come from obscure places and race, creed, or national origin should not be allowed to get in their way. If you can communicate, even if you're in the dark, open up and do so.

	Diminishing returns can mean an energy drain, even when it looks like everybody's in there to help push things along. Repeated attempts to make the job go better can simply tire without accomplishing much. Once you've got it done well enough, leave well enough alone and move on to the next. A word to the wise: getting the final word on anything will be virtually impossible, and no matter how tight your argument, loose ends turn up that won't be silenced. Go for the first word, and stick with positive words, but leave the last word for later. When things expectedly get over tangled, your response should be, in a word: enough!

Venus Sextile Mercury						
Let out your bright ideas one at a time and you'll always have someone drinking from your trough. Shared small talk tells big tales when you put it all together, so don't bite your tongue. Pleasant conversations are the very stuff of both friendship and prosperity, so if you have something good to say, say it.

The season relaxes your way and gives you a confident stride that can carry you along with ease. Lay back and let your inner energy carry you along, no need to put up a fight to get through. General background support will give you that extra lift to surf the wave and roll onto the beach like a pro.

Desires too hotly pursued often cloy, and the more you push, the less satisfactory the result. If the first couple of tries don't get you all you want, figure that's all you're reasonably going to get for the moment -- save your energy for a new need that will require your loose juice to satisfy.

Whenever you've got the time and energy, put a little something into making that special dream come true, no matter how unlikely you may think it is. The ladder to heaven is climbed one step at a time -- keep it up and before you know it, you're above the clouds. And if you ask, there is help along the way.

Simple pleasures, simple fare often satisfies the most, and small bites make for better digestion. Put together enough appetizers, and you've got a meal. It's time to enjoy life's smorgasbord and sample multiple pleasures without pigging out on one. A gentle touch and a slow hand are what makes the earth move under you.

External observation and experience at the moment seem to conflict with your inner convictions about life, death, and cosmic justice, but the ultimate effect will be to expand, not nullify, the direction of your beliefs. Essentially, the pattern is still there, just broader than you had observed.

Mixed emotions may be the flavor of the day, and trying to sort them out verbally can be a knotty and ultimately unsatisfying process. Half an explanation is better than exhausting dissection of raw nerves, so patch things up as best you can and let circumstances take care of the rest.

Don't be goaded into forcing the situation just to have your way. You may be lured into actions you will later regret, even if only because they are a waste of time. If you can't go around it, go under or over it, or just back away. A struggle will get you nowhere and only tire you out. Be like water, not like rock.

	New Year's resolutions are just part of the getting-earnest style of the next month, where sincerity, business, and sometimes desperation are the drivers which themselves lose steam when the New Year turns out to be just another new year. Pretending deadly seriousness can be a kick, but living it is a drag, so play there, but don't stay there.

	Faulty information can hang you up, and chasing a false lead can waste even more precious time. Be suspicious of unasked-for criticism, as it may be offered just to slow you up. Better right now to rely on what you already knew and not what you are being told. Turning a deaf ear may be just what will see you through.

	You may find that positive new developments around you don't square with your pre-set notions, and the temptation to argue them down is great. It's probably better to keep an open mind, as a little change of personal dogma might not be a bad thing. Investigate the possibilities, but don't torture yourself over it.

	People will say anything for a laugh about now - and for the next few weeks they'll tend to just say anything in general and then keep talking. Blue-sky blustering is the order of the day, but there's a kernel of truth in some of those free-form filibusters, so don't overlook that fleck of gold gleaming in the pan.

It's particularly easy to get your inner message across, and words don't get in the way even when trying to communicate non-verbally. It can be too easy to keep trying to force the issue when you can't exactly put your finger on how you feel about things. Uncertain sentiments don't really get more tangible by pushing them, so don't wear yourself out attempting explanations or in-depth elucidation. There is no blame in ambiguity.
