Quiet confidence in achievable goals makes things run smoothly and cooperation in the mutual interest means everybody gets just the right piece of the pie. Giving easily without a thought to the cost breeds instant karma and it all comes back again in spades. Fearless love is its own greatest reward.

It may take more than one try to sell your track record, however reliable it may be. It's really a matter of finding the right buyer with the right needs, and that's an occasional thing at the moment. You may be better off showing off your future potential rather than your past, as times have changed -- move with them.

This is an excellent time for whipping up great faith in whatever new trip you are onto, regardless of its apparent merits. Faith is the operant word here, for if you instill enough of it yourself and inspire enough of it in others, you can succeed where you probably wouldn't or shouldn't otherwise. Basically, your personal or financial success (it can be either) can hang on your ability to generate a deep feeling of trust and the inevitability of what you believe to be the right course. That's what people are looking for right now. If you can make your belief theirs, then you can take a ride together and you won't have to sell anymore. And when you pull together with the abiding knowledge of success, it's a lot more likely to happen.

Tend to affairs at home for a bit and you won't regret it. The time for that public relations push is not now, put it on hold while you shore up your personal foundations and repair your firewalls. When your launch pad is secure, only then should you start your countdown to blast-off.

Solar home front peak for the year gives emphasis to making up for lost time in the house and home, from repair of home or apartment to patching up family priorities that have been allowed to slide. Good feeling can oil the works now, so tend while it's easy.

The coming year witnesses a shoot-now-ask-questions-later approach to new developments all around, in which the tendency is to jump onto new bandwagons before you check to see if they have wheels. There's a feeling of racing ahead into the future, but to where, really? Catch the tide, but keep your eyes open, ask questions.

					Easy ability for self-expression and a natural gift of communication seem to materialize for a while, more than usual at the best of times. This engenders greater and more diversified social contacts and a corresponding flow of ideas that bring inventiveness and mental inspiration as a dividend.

 The month ahead promises a lot of heightened communication - at least that is the general expectation, so expect to hit a chord if you say more rather than less. Intellectual solutions are the rage, but that may be simply to paper over what's being ignored underneath. Keep options open, however, as you never know which sound bite is going to wind up the winner and hit home to the truth.

 Don't try to think too far ahead about how to dole out your energies, or you'll get ahead of yourself. Figure it out one step at a time, don't run full out when you can jog easily along. Plan the next set of laps at every pit stop and all will run smoothly. Conservative planning will assure success.

 High mental energy burns hot, a real brain boiler. The trick is to keep up with everyone without missing a stitch or dropping the ball. Great ideas abound, but don't buy everything you see until you give it a second, cooler look. Everyone can be too close to the subject to realize that what recommends it is only the heat of the moment.

There's sweetness in simplicity in the air, and the good old pleasures haven't lost their appeal. For the next few weeks, you don't need fancy cuisine to take a nice bite out of life, or so the general opinion seems to run. If that leaves you yawning, just wait it out and live on what's around until things spice up.

<p>Boundless energy and enthusiasm can overwhelm, like a herd of runners all attempting the hundred-yard dash. You may want to think about not joining that herd but siphoning off some of the energy around you in a more reasoned way. Overweening eagerness lacks staying power, but ardor can be a thrill when channeled.</p>

<p>Voracious appetites can be a drain on your energies, so don't give it all away to a single, demanding voice. Be generous, but not to a fault, and share your bounty where it does the most good. Criticism disguised as a compliment also hides self-interest that is not your own. Vampires seldom look like bats, but feed nonetheless.</p>

It may be difficult to maintain your perfect image when other distractions draw your attention elsewhere. Save your stage appearances for later and check the mirror only after you've finished with necessary business. Work clothes are the order of the day -- there will be time for dress up when the evening rolls around.

It's easy to make quick, lightning reactions to situations for the surrounding few days that you might come to regret later. Pace your emotions when they tend to fly off the handle, at least insofar as you commit actions you cannot retract. If you shoot from the hip, it could be your foot that pays for it.
