Mercury Stationary Retrograde in 12th House

For the next three weeks you may feel like you're waiting for things to come together, but you don't know exactly what they are. Kind of like watching a row of seeds you've planted -- you hope something is happening, but it's hard to tell. Events for you are, in fact, restructuring themselves behind the scenes, and you may be in for some surprises when all is resolved. Your best course is to make as few assumptions as possible and don't bet on the same old horses. Be open to your own intuitive hunches and be ready to jump aboard a new bandwagon when it suddenly materializes. It may come from closer than you think and from those you might have taken for granted.

You may have found the last few weeks have required you to spend some time pinning down just who your real friends are. Misplaced expectations can make for delay, but once you've

separated the wheat from the chaff you'll have a better idea of who is really in the game. Now is the time to nail down those connections who had been hovering in the wings, time to get the message through to the ones who matter. That's important because you may soon need a shoulder to lean on, or at least a reliable counterpart who can help provide focus and serve as radar when the fog rolls in.

The next three weeks may well mark a lot of ebbs and swirls in the social fabric you move in, with associates backing and filling and sometimes seeming less than reliable. No blame here, just a general reshuffling until everyone feels comfortable with their positions, including yourself. Try to work on removing obstacles to the flow and diplomatically shift your schedule according to who better fits your evolving agenda. Toward the end, you may have to call into question some aspects of your financial underpinnings in order to effectively make contact and cause others' goals to come into step with your own.

Kinks, twists, and delays in financial matters are on their way out and a return to smoother sailing is in the works. Although delays may have been annoying, the resolutions they have brought will benefit you immediately and in the long run. Picking up loose ends and tightening your operation has lasting benefits, not only on your resources, but also on your opportunities

to disseminate your ideas and expand your contacts and horizons. Any headway you may have lost is momentary and will be made up for by a smoother operation, a steadier course, and fewer distractions over the next several weeks. Tie up loose ends and be ready to move on to expanded horizons and a surer sense of your underpinnings.

Sometimes assumptions about those most close to you can turn out to be misperceived, and the next three weeks gives you a chance to take a second look. You can nip problems in the bud and smooth potentially ruffled feathers, including your own, where things have been taken for granted and are slowing down progress. Mending ties to others can make for stronger relationships if you are ready to address small problems and so prevent them from growing. In the same way, good fences make good neighbors, and keeping your own integrity may be part of it, so don't do others' jobs, but let equality have play.

Mercury's reversal directly on your Sun is a road sign for coming reevaluation of your fundamental energies, the way you project yourself from the inside out. Perhaps it is time to again put to words and rephrase just what it is that you're all about, and fine-tune your inner beacon's lens so that your light shines more clearly on the world. The message is: Don't take yourself for granted and don't let precious resources sit idly by when you can put all your balls

in play. Don't just deal from a full deck, but from a full and knowing heart, without reservation.

As you turn the corner toward clarity after a few weeks of unasked-for change, you realize that no one was to blame. What seemed like mistakes were simply different roads to the same destination and it's clear that keeping your eye on the ball and not on the pitcher is the only way to go. Resolving differences is the surest way to a strong partnership, especially when driven by a common goal. You can look forward to a backward look that may give you a boost in the coming month or so, so keep those eyes in the back of your head wide open. Tomorrow's prize lies in the hand of another, so be ready to shake it.

Mercury turning back to action on your Sun means this three-week period of reshifting is best rid of through the sheer force of your personality. Where things had gotten tangled, a willing smile and a positive attitude will cut through the confusion and clear up misunderstandings. Where you might have done well before to delay and see which way the wind blows, now you can be the wind itself and blow away the mists that may have limited visibility for all concerned. Don't expect instant sunshine, but you can count on clearing skies and relieving rays to decorate the coming days.

Partnership struggles and confrontations can come as a result of frustration and working at cross-purposes during this period. It's important to remember that you're not the only one trying hard. Give all the respect possible to what your partner puts in, even if it seems to fail, and hope that you get the same generous treatment. In this time it's trying, not necessarily succeeding, that counts -- and going back to the drawing board together can be equally as bonding as getting it right on the first try. It's not just what you accomplish, it's what you help each other work through, that cements the bonds of the heart.

Cross-purposes, crossed wires, and conflicting energies may have left you drained of late, but realignment is now underway that will allow you to get back in tune with things. You will find yourself better able to take charge of your daily routine and let it energize you rather than drag you down. Experimentation with various alternatives now leads to the choice of a single path that both conserves your inner resources and brings you dividends in the process. Put aside time-wasting diversions and go with what -- and who -- really make you feel alive and glowing.

Mars Conjunct Mars

This second Mars return is the beginning of a two-year cycle of energy and promotion that, for a while, looked like it would never show up. Long-awaited wells of energy open up and a change in status in work or the major projects you are involved with mark a new step in your evolving journey along the path to achievement and success. This is not necessarily a life-altering development, but it is certainly another significant and welcome advance that reenergizes and rejuvenates. The essence, since this is the end of Mars retrograde, is tying up loose and useless ends and getting with the new program.
