Mars Stationary Retrograde in 05th House

This period can be fun and profitable if you are willing to try multiple efforts and not expect them all to finish. A creative shotgun approach where you go with the best of many tries may be taxing, but you'll likely come up with a winner in the end and have several more half-developed possibilities for later. This is not a time to put all your eggs in one basket, but rather to sample eggs and baskets and see which suit. Keep a positive attitude and a tight inner focus and you'll thrive where others lose their way. Readvancing the principles you have already established for yourself allows you to play strong but easy.

After a period when attempts to shore up and develop your underpinnings may have gotten you the runaround, you'll find that selective attempts to make your castle stronger will meet with success and applause. Pick your projects and don't scatter your energies and you'll find what seemed like swimming upstream will become a walk in the park. The key is to get in touch with what is important to you inside and let your outer efforts reflect your inner strengths. Draw on your fundamental capacities to jumpstart a specific initiative and playing the game will become a breeze.

For the next three weeks you may feel like you're waiting for things to come together, but you don't know exactly what they are. Kind of like watching a row of seeds you've planted -- you hope something is happening, but it's hard to tell. Events for you are, in fact, restructuring themselves behind the scenes, and you may be in for some surprises when all is resolved. Your best course is to make as few assumptions as possible and don't bet on the same old horses. Be open to your own intuitive hunches and be ready to jump aboard a new bandwagon when it suddenly materializes. It may come from closer than you think and from those you might have taken for granted.

If loss of communications has left you clueless, you can start collecting more reliable evidence again. When exterior sources fail to provide the information you need, you may have to rely on your inner resources and come to your own conclusions without external input. However, if you can avoid tying yourself down, that would be a better choice, as things may be going on without

your knowledge that will surface soon and give you a better handle on your operations. When the mist clears, you'll have the opportunity to really make yourself seen and heard.

The next three weeks may well mark a lot of ebbs and swirls in the social fabric you move in, with associates backing and filling and sometimes seeming less than reliable. No blame here, just a general reshuffling until everyone feels comfortable with their positions, including yourself. Try to work on removing obstacles to the flow and diplomatically shift your schedule according to who better fits your evolving agenda. At this kind of period, the usual joys of partnership may appear to have become a bit tarnished, so it's probably time to get out the polishing cloth. In some ways you may be asking not for more than what you want, but what you don't want at all, and that cannot satisfy. If you depend on habit, relations cloy, for it is only what you know you want right now that ultimately fits the bill. So be willing to spend some time winnowing your relationships, keeping what really works and letting the rest pass. When clearly stated desires are again being addressed from both sides, that's when life begins again.

Venus making a turnaround on your Sun introduces you to a few weeks of reevaluation about just how you want your personal sun to shine and upon whom. You may find you have been giving more than you've been getting -- or should get, in some areas -- this would be a good time to pull back a little and have a look. Perhaps you should wait until results are in before going that extra mile in hopes of greater reward. Don't give it away free unless you know it's from your heart, and then don't ask for payback. If you can't afford it, don't do it, wait until you can.

If you're not sure of what you want out of someone, it can be hard to get it, an ordinarily easy give-and-take lately may have become more like push-and-pull. First, refigure out what it is you want to ask of a partner, then put it out clearly so there are no mistakes. That means as much knowing what you aren't asking for as what you are. Imagined or illusory expectations can make a muddle of things, but as you focus on your real desires, the small stuff starts to fade into the background, allowing real dialogue to begin. When you know what to ask for, others become the resources you would like them to be.

Venus kicking off from your Pluto pushes must-have issues to the fore and you may find yourself at loggerheads with others who want what you want and may not want to share. Remember only that compulsive needs fulfilled seldom satisfy for long, so if you're feeling driven, keep one foot on the brakes. Fighting for fleeting fantasy, however urgent, is probably not worth the effort, and the most powerful will is the one that can keep still, so don't feel you have to prove yourself. Let others drain themselves in the fray, while you shoot for bigger game and longer-term satisfaction.

For the next three weeks you may feel like you're waiting for things to come together, but you don't know exactly what they are. Kind of like watching a row of seeds you've planted -- you hope something is happening, but it's hard to tell. Events for you are, in fact, restructuring themselves behind the scenes, and you may be in for some surprises when all is resolved. Your best course is to make as few assumptions as possible and don't bet on the same old horses. Be open to your own intuitive hunches and be ready to jump aboard a new bandwagon when it suddenly materializes. It may come from closer than you think and from those you might have taken for granted.

You may have found the last few weeks have required you to spend some time pinning down just who your real friends are. Misplaced expectations can make for delay, but once you've separated the wheat from the chaff you'll have a better idea of who is really in the game. Now is the time to nail down those connections who had been hovering in the wings, time to get the message through to the ones who matter. That's important because you may soon need a shoulder to lean on, or at least a reliable counterpart who can help provide focus and serve as radar when the fog rolls in.
