Sun/Mars

- November begins with conditions that favor war and aggression.
- Aggression may peak around the time of the Sun/Mars conjunction and the Full Moon (11/17/2023 – 11/20/2023).
- Negotiations may increase, though, as more planets move from Scorpio into Sagittarius in the last week of November.
- Throughout the Lunar Month a series of beneficial sextiles and trines will aid the efforts of diplomats and others to reduce tensions.
