Too much, too little, can't be satisfied -- the story you may be hearing today. Real needs and imagined desires can get mixed up, causing ups and downs that can alternately deprive and then waste. Finding the balance is the trick, so all get only their fair share and no one gets left out. Watch phrase: measured generosity.

double-entendres and puns fill the air in a competition for the intellectual edge. Join in if you want to, but don't feel you must.

Constantly getting lost can really slow things down, and a general tendency not to ask for directions or not to understand them has everyone spinning their wheels. Quicksand is mistaken for solid ground and it takes a lot of thrashing about to regain the shore. It might be better just to wait for a change in the weather.

Separating the wheat from the chaff is a stop and go operation, and just as a good idea seems about to be fruitful, a problem arises. Each time, however, you get closer to a final fix, so the frustration will be worth it if you see it through to the end. A time to refine big ideas until they have definition.

Fickle desires and changing tastes can make it difficult to satisfy yourself or those around you. If people keep changing their minds, what is one to do? It's probably best to wait for a clearer focus before committing to something that could be out of fashion the moment after it's begun. For the time being, just experiment.

Whittling away at your needs too insistently may only serve to magnify them and force a spiraling return to an overtapped well. If you take what you need and be done with it, what you have will suffice, even if you have some reservations. Total satisfaction may have to wait a bit, complaints don't help, only annoy.

High mental energy burns hot, a real brain boiler. The trick is to keep up with everyone without missing a stitch or dropping the ball. Great ideas abound, but don't buy everything you see until you give it a second, cooler look. Everyone can be too close to the subject to realize that what recommends it is only the heat of the moment.

Sudden insights appear and then vanish before you can work them out and set them down. The journey of the mind is interrupted and must proceed in fits and starts. It's a good time to see different sides of the issue, but hard to get a tight bead on the target. Take it in stride and collect information.

ride might mean you need some new shocks in your life plan, so you might investigate it. It could just be the traffic in general, which is very stop and go right now, but it will even out before long. Avoid road rage.

Negative thinking can sour the environment and confound the mind, so don't be a sourpuss -- and when you see one coming, cross to the other side of the street. It's easy to get into a downward spiral, so deal with problem issues only once and be done with them. Criticism gets nowhere, so it's not worth the bother.

A good belly laugh satisfies everyone right now, and refined taste is not necessary to make a hit. In fact, nuance may not be much in demand at all, so don't expect you're subtleties to get lapped up. Go for the gusto, along with everyone else, or else sip your sup on the side. Slow and steady wins the race -- in this case, without even knowing the race is on. Quiet thought in a still place dispels the cobwebs of the mind and substitutes depth for crowded considerations. <p>Abrasiveness and annoyance are qualities you might be running into right now, so make sure you're not displaying them yourself. Impatience is not a virtue, even if you know you're right, and it's easy for everyone to pointlessly butt heads. Schemes laid now may well be half-baked, so take a second look, maybe a third.</p>

This must be "growing awareness month," starting at zero for most, so if the general atmosphere is clueless, join right in. The next couple of years will produce the end of many illusions and hard times for those who perpetrate them. Matters of unconfirmed belief are likely to be tested, and those who have relied on intuition alone to get by may have to take a more tangible and practical approach. Whether it be love or money, business as usual is good and satisfaction is almost taken for granted. A look at just how you go about that might make for an even better tomorrow. The hand-in-hand flavor of giving and getting is what makes deals go well now, and that's something to emulate in the future.

The wellsprings of the mind are, like water, often taken for granted. When ideas flow fresh from the tap, one assumes they are always there, as at this moment. Launch it now and that will likely always be the case, but a look inside the mechanics of your everyday creativity might help you drink when wells run dry.

Constantly getting lost can really slow things down, and a general tendency not to ask for directions or not to understand them has everyone spinning their wheels. Quicksand is mistaken for solid ground and it takes a lot of thrashing about to regain the shore. It might be better just to wait for a change in the weather.

A dreamy atmosphere makes getting down to brass tacks difficult, so put that off to another day. On the other hand, the realm of the imagination opens up and connections to otherworldly things are close at hand. Connections and commitments made now have a haunting, spiritual quality that lingers in the back of the mind.

A mist upon the mind makes ordinary clarity just history for the time being, but the numinous clarity of dreams is at your beck and call. If you can envision it, you can express it, so keep a journal by your bedside. Don't expect things to make sense right away, but in retrospect it will shine like a firefly in the dark.

People will be exerting themselves with some amount of caution for some time to come, as the inclination is to put all your energy into one, cherished effort and nurture it through, ignoring other prospects or demands.
