#### Mercury Stationary Retrograde in 04th House

The next three weeks may cause you to step back and rethink your course and reset your bearings to make sure you are really on the course you intended. Do not hesitate to question fundamental values in order to get to the heart of what you believe and resolve inner conflicts that may arise. Small insights can net you large gains, particularly in the future stability of your ship. Rock your own boat before others do, and you'll be the better off for it. By the end, you may find risk reevaluation highly useful, particularly when you depend on others to evolve into what you will lean on in the future.

Several weeks of greater confusion than you'd have liked are on their way out and you can get back to what you were doing with a bit more confidence and sense of purpose. Getting roadblocks out of the way allows you to chart a surer course and feel better about what you are doing and what kind of commitments you can make and live up to. Red herrings and detours can be put behind you as you get back onto a map everybody can buy into. Sometimes assumptions about those most close to you can turn out to be misperceived, and the next three weeks gives you a chance to take a second look. You can nip problems in the bud and smooth potentially ruffled feathers, including your own, where things have been taken for granted and are slowing down progress. Mending ties to others can make for stronger relationships if you are ready to address small problems and so prevent them from growing. In the same way, good fences make good neighbors, and keeping your own integrity may be part of it, so don't do others' jobs, but let equality have play.

As you turn the corner toward clarity after a few weeks of unasked-for change, you realize that no one was to blame. What seemed like mistakes were simply different roads to the same destination and it's clear that keeping your eye on the ball and not on the pitcher is the only way to go. Resolving differences is the surest way to a strong partnership, especially when driven by a common goal. You can look forward to a backward look that may give you a boost in the coming month or so, so keep those eyes in the back of your head wide open. Tomorrow's prize lies in the hand of another, so be ready to shake it.

Sometimes when you choose to lean on friends, you find they're leaning on you already, and then everybody gets confused. The next three weeks give you the chance to discover and address this kind of situation so that good feelings remain all around and everyone is back on a mutual course. One reason this can happen to begin with is that you may have been paying

too much attention to your own goals and aspirations and lost track of your personal support grouping. A little healthy self-introspection may help your own ambitions find better focus and general support where you can most rely on it.

You may have found the last few weeks have required you to spend some time pinning down just who your real friends are. Misplaced expectations can make for delay, but once you've separated the wheat from the chaff you'll have a better idea of who is really in the game. Now is the time to nail down those connections who had been hovering in the wings, time to get the message through to the ones who matter. That's important because you may soon need a shoulder to lean on, or at least a reliable counterpart who can help provide focus and serve as radar when the fog rolls in.

#### Mercury Stationary Retrograde in 03rd House

The next three weeks may well mark a lot of ebbs and swirls in the social fabric you move in, with associates backing and filling and sometimes seeming less than reliable. No blame here, just a general reshuffling until everyone feels comfortable with their positions, including yourself. Try to work on removing obstacles to the flow and diplomatically shift your schedule according to who better fits your evolving agenda. Toward the end, you may have to call into question some aspects of your financial underpinnings in order to effectively make contact and cause others' goals to come into step with your own.

Jousting for position can be the order of the day during this period, and you may find the competition gets stiff until everybody gets their territory. The trick is to avoid permanent conflicts that could haunt you later. Life can be a tournament, but it shouldn't be a war. So be ready to take as well as you give and don't stubbornly grasp at what's not worth fighting for. You'll more likely find a position by repositioning than by siege or going down with the ship. Winning is about survival, not conquest -- you needn't be the last or only one left standing at

the end of the day. It's all about if you fell down, did you get up?

Brilliant flashes of insight and problem solving may suddenly require a second look as Mars backs off your Mercury. Easy solutions will take a bit more work until they can be hammered into workable pathways to success. Mental effort can tire just as easily as physical, however, so don't beat your head against obstacles that don't respond on first approach, but be willing to try, try again with smaller steps until it all comes together. Instant results are less important (and less likely) than final triumph over the long haul. Headway in the smaller leads to the greater good.

Throwing your energies into various forms of self-promotion may have yielded not much forward motion lately, but a turnaround is now becoming available if you corral your energies and choose a single plan of operations. Single-minded career efforts will find reward and you will be judged by your level of commitment to your own exertions. Believe in yourself and follow word with deeds -- it's the proof of the pudding where others are concerned. Where you make an impression with manifested self-confidence, there you will find fast friends and lasting connections.

Mars launching forward on your Mercury should set mental sparks flying and energize solutions to previously puzzling problems. However, the urge to smash idols and cut the Gordian knot should be tempered with second thoughts, as there's no turning back once you burn a bridge behind you. Remember that things are only just coming together and it still may take some work to get the kinks out before you go for full throttle. Burning the midnight oil should come more easily now, even to the point of difficulty in turning your mind off when you need to take a rest.
