As Mercury gets itself back into gear on your Pluto, pecking order issues that may have arisen lately can be resolved and competition put aside where it is not needed. You can figure out how to get your way without imposing it -- either by cooperation or simply by sleight of hand -- and there is no reason to waste unnecessary muscle making it happen. You can equally well put your finger on your unresolved fears and find that when you shed light on them, there's nothing there to be afraid of. Known challenges are always easier than what lurks unseen, and this is a good time to cast a little light into the darkness.

All that remains is to put the finishing touches on new approaches and link them all up with others who may be involved. Missed or mixed up messages are resent or clarified so everybody is back on the same page and agrees upon what the next step is going to be. A general sense of well-being supplants a certain unease born of uncertainty and you get back to your healthy glow born of knowing where you've been and focus on where you're going.

Mercury Conjunct Moon

Mercury kicking off its return to action on your Moon tweaks your sensitivities to the confusions and delays of the last few weeks and enables you to make snap decisions to regain headway and get things back to normal. If it feels right, it probably is right, and you'll even likely be able to find exactly the right words for it. Tune up your antenna for communications arriving that impact your emotional state and clear up mixed messages you might have been relying on. Keep it light and breezy if you can, as others may be depending on your cheerful attitude to infuse them with the same.
