# Astrological Weather Report for the Lunar Month

## October 10 – November 9

# Review

**Summary:**

- With Neptune in Aries sextile Pluto in Aquarius, many people's minds around the world will continue to open up to more transcendent thoughts and possibilities, and transformative technology will continue to advance. Additionally, people will gravitate more toward individual thought and philosophy (Neptune in Aries).
  AI has noted the following trends toward individualism in September – (1) Global skepticism toward governments and traditional media, (2) Bottom-up political movements gaining traction, (3) Surges in citizen-driven investigative efforts, (4) A noticeable shift in economic behavior, and (5) Independent interpretation of scientific and health information.
- The world will continue to seek healing and financial stability (Chiron in Taurus trine/sextile Lunar Nodal Axis).
  According to AI, the world has attempted to heal itself through (1) Conflict de-escalation attempts, (2) Public health stabilization, and (3) Social cohesion initiatives. Financially, countries have tried to heal through the following: (1) Central banks shifted toward stabilization, (2) Countries restructured debt, (3) Governments implemented targeted stimulus, (4) Markets began stabilizing after volatility, and (5) Households shifted toward financial self-repair.

## Summary:

- The last week of September and the first week of October will see a heightened risk of wounding, violence, and war for the world (Mars square Chiron and opposite Pluto) and America (Mars opposite Pluto and Saturn square Sun) and Iran (Jupiter square Uranus and Mars square Jupiter).
  During this period there has been an excess of saber-rattling and aggressive actions. In addition to ongoing threats from Trump to obliterate Iran, there has been escalation in the war between Ukraine and Russia, strikes back and forth between the USA and Iran, increased aggression between Yemen and the Houthis, and infringements by Russia on NATO territories.
- Frequent inner planet oppositions to transiting Chiron and Saturn will bring brief periods of wounding and frustration to the world.
  Sporadic threats and attacks between countries in conflict is well-documented over the last lunar month.

## Summary:

- With transiting Chiron sextile natal Venus in the 2 July 1776 chart for America and with transiting Lunar Nodal Axis sextile/trine natal Venus and transiting Jupiter trine Chiron and sextile Mars, many Americans will likely feel good despite the country's current problems. People will find their happiness.
  My own perception is that many Americans are finding ways to survive and get by despite all the external problems currently in the country.
- With transiting Uranus beginning to conjunct natal Uranus, there is a heightened risk for America of conflict and revolution at home or abroad.
  Trump has threatened several times to completely obliterate Iran.
- With transiting Saturn square natal Sun from the last week of September through the rest of the lunar month, America and its leaders will likely feel shortages and restrictions.
  Trump's approval rating has steadily declined to 39% with 60% of the public disapproving of his performance. Furthermore, the past lunar month has seen prices rise across the board in response to increases in the cost of gasoline and diesel. Additionally, climate change is beginning to result in a scarcity of many species of fish.

**Summary:**

- For Trump, the transiting Lunar Nodal Axis conjunct his natal Ascendant/Descendant will continue to intensify his feelings. Nonetheless, a flurry of harmonious aspects (transiting Chiron trine Ascendant, transiting Uranus trine Neptune, transiting Jupiter sextile Jupiter, transiting Jupiter sextile Uranus, transiting Jupiter trine Moon, transiting Jupiter sextile/trine Lunar Nodal Axis, and transiting Saturn trine Pluto) will probably make this a pretty good lunar month for Trump.
  According to AI, Trump experienced the following benefits in September: (1) Multiple polls showed Trump gaining approval compared to earlier weeks, (2) Several polls showed Trump *closing the gap* (smaller disapproval spread), and (3) Trump had some high-profile meetings with others in the international community, and he won some important court decisions.

**Summary:**

- The authoritarian decisions of Iran's leaders will likely continue to oppress the people and stymie growth (transiting Pluto in the 10th House opposite Jupiter in the 4th House).
  According to AI, in September Iran oppressed its own people through (1) Large-scale killings and violent crackdowns on protesters, (2) Mass arrests, arbitrary detention, and enforced disappearances, (3) Torture, solitary confinement, and denial of medical care, (4) Intensified use of the death penalty, (5) Nationwide internet and communications blackout, (6) Repression of religious and ethnic minorities, (7) Interference with mourning, funerals, and families of victims, (8) Suppression of free expression and heavy sentencing, and (9) Crimes against humanity (UN assessment).
- Also, more saber-rattling by Iran is likely throughout September (transiting Jupiter opposite Mars).
  According to AI, since September 10 Iran has (1) Renewed threats toward the United States and nuclear-site signaling, (2) Aggressive maritime posture in the Strait of Hormuz, (3) Proxy escalation via the Houthis (Red Sea / Bab al-Mandeb), and (4) Targeting U.S. forces and signaling capability.

## Summary:

- In October, the Iranian people will probably be feeling ready to revolt against either their own leaders or their attackers (transiting Jupiter square Uranus and opposite Sun).
  According to AI, the following signs that usually preceed revolutions are present: (1) Severe economic collapse, (2) Widespread public anger, (3) Regime openly preparing for unrest, (4) Dissent within police ranks, and (5) Historical precedent for uprisings under similar conditions.
- Nonetheless, with good aspects involving Saturn and Jupiter (transiting Saturn trine Moon, transiting Neptune trine Jupiter, transiting Jupiter conjunct Moon and sextile Pluto and trine Neptune), many things will probably go Iran's way.
  In many respects, Iran now seems to hold more cards in its war with America than America does. In September 2026 according to AI, (1) Iran claimed successful military pressure on U.S. naval forces, (2) Iran's Supreme Leader publicly framed U.S. naval movement as a victory, (3) Iran proposed a one-week ceasefire framework, (4) Iran secured upcoming mediator-led talks with Qatar, (5) Iran's Revolutionary Guard claimed to stop a terror plot, and (6) Oil flows through the Strait of Hormuz increased despite conflict.

# Summary

## Summary:

- For the world, in general, planets from Mars on out will be making harmonious aspects with one another from October 10 through October 25. This could be a positive period overall for the world despite various ongoing conflicts that will likely continue.
- From October 26 through November 5, there will be an absence of major aspects from Mars on out, and this could indicate a couple of weeks of relative stability.
- From November 6 until the end of the lunar month, though, oppositions involving Mars, Jupiter, and the Lunar Nodes could indicate some big actions that could stir the pot.
- Daily transits involving the inner planets, though, show some ongoing tensions involving Mars, Chiron, and Pluto throughout the lunar month.
- The opposition of Mars to Pluto that occurred on October 3 of the last lunar month will be followed in this month by Venus square Mars, Pluto stationary direct, Venus square Pluto, Sun entering Scorpio, Sun square Pluto, and Mercury square Mars. Thus, the ramifications of the October 3 Mars/Pluto opposition will likely reverberate throughout the lunar month.
- On October 24, Mercury will turn retrograde, and this could result in people reconsidering their situations and where they want to go.
- Efforts to heal the world will likely continue (Chiron sextile/trine Lunar Nodal Axis).

## Summary:

- For America from October 10-19, the country's actions both at home or abroad will continue to be revolutionary (t. Uranus conjunct n. Uranus), and America's leaders will feel more restricted (t. Saturn square n. Sun). Then for the remainder of the lunar month, America's people or leaders will feel more wounding (t. Chiron square n. Pluto). Nonetheless, beneficial aspects during the first week of November and beyond will bring some relief.
- October 17-20 may see more tension than usual for America due to transiting Sun square Moon, Mercury, and Pluto.
- **Following this video, I'll do a special video on America and the midterm elections. I can't predict for certain who will win or lose, but I can describe some of the interestng astrological weather leading up to the election and following it.**
- For Trump, there will be a mix of good aspects and bad aspects that will compete against one another throughout the lunar month. Among the tense aspects are transiting Lunar Nodal Axis conjunct the natal Ascendant, transiting Mars conjunct natal Pluto which will resonate with Mars and Pluto aspects occurring in the world, transiting Lunar Nodal Axis conjunct natal Mars, transiting Jupiter conjunct natal Mars, transiting Saturn conjunct natal Mercury, and transiting Jupiter square natal Midheaven. Given the power at his command, Trump may be particularly dangerous and aggressive this lunar month.

## Summary:

- Among the good aspects for Trump this lunar month are transiting Uranus trine natal Neptune, transiting Jupiter trine natal Moon, transiting Saturn trine Pluto, transiting Jupiter sextile natal Sun, and transiting Chiron trine natal Mars. These good aspects will throw Trump a lifeline.
- On October 16-18, transiting Sun will square Trump's natal Saturn and Venus. This aspect will likely negatively affect Trump's status and reputation, and it mirrors the tensions seen from October 17-20 in the USA chart.
- All in all, the world may make beneficial progress this month but there will also be ongoing ramifications of the October 3 opposition between Mars and Pluto, America will experience both restriction (t. Saturn square n. Sun) and wounding to its power (t. Chiron square n. Pluto), and Trump will likely feel restricted and be very angry and combative due to several tense aspects involving Mars.

## Increased Tension From October 15-21

**World**

- Pluto stationary direct on October 15.
- A tense 1st Quarter Moon on October 18 with a t-square involving Sun, Moon, Chiron, and a little bit of Pluto.
- Venus square Pluto on October 20.
- Sun opposite Chiron on October 21.

**America**

- Sun opposite natal Chiron on October 13.
- Sun square natal Moon, Mercury, and Pluto on October 17-20.

**Trump**

- Sun square natal Saturn and Venus on October 16-18.
