**PRELUDE TO THE FEBRUARY
20, 2026, SATURN/NEPTUNE
CONJUNCTION**

Association between alignments of the outer planets and global news highlights – a study of mundane astrology 1984-2021

Johnson Holt, PhD.

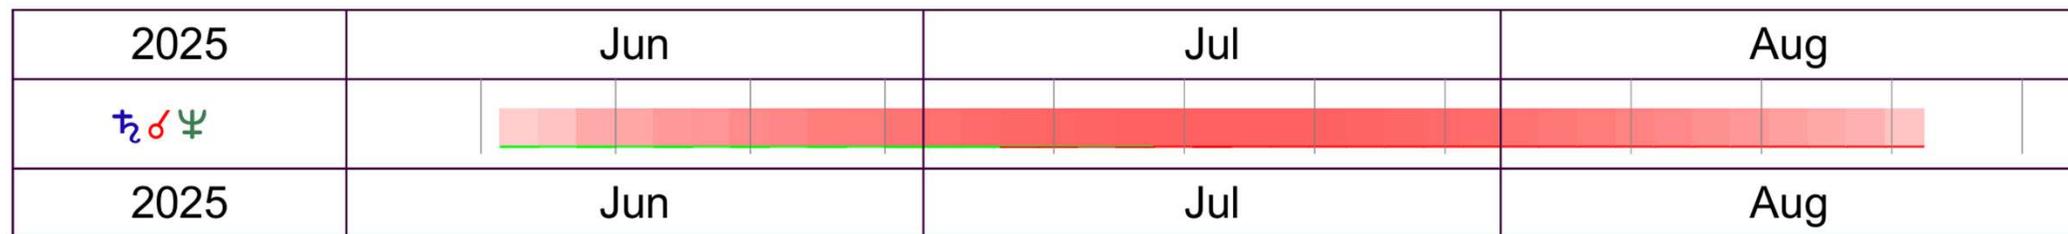

Abstract

A significant association ($p < .01$) was found between the occurrence of tight aspects ($orb < 1^\circ$) that the five outer planets make in the sky and the occurrence of independently sourced historical highlights over the period 1984 to 2021. The aspects considered were all conjunctions and oppositions between Uranus, Neptune and Pluto and the same aspects these planets make with Jupiter and Saturn. The number of news highlights in a year was compared with the frequency of these aspects in that year or in the previous year. The conditional probability of a high-news year given two or more such aspects was 0.68, compared to a conditional probability of 0.23 given one or zero aspects. A high-news year was therefore nearly three times as likely when two or more aspects occurred in the same year or in the previous year than when they did not.

The near conjunction of Summer of 2025 and the exact conjunction in February 2026.

Since this decision was released just a couple of hours before the exact conjunction of Saturn and Neptune which squares natal Venus exactly to the degree in the 2 July 1776 chart for America, this decision is likely to play a major impact in difficulties and unrest to come.

Expectations:

- A calm day in the world.
- People formulating creative plans and future visions that will enhance their control over their personal lives (Uranus sextile Saturn/Neptune in Pisces and all three trine or sextile Sun/Moon/Mercury/Mars in Capricorn).
- A further opening up of people's minds due to the harmonious aspects from outer planets to personal planets. The aspects favor progressive thinking.

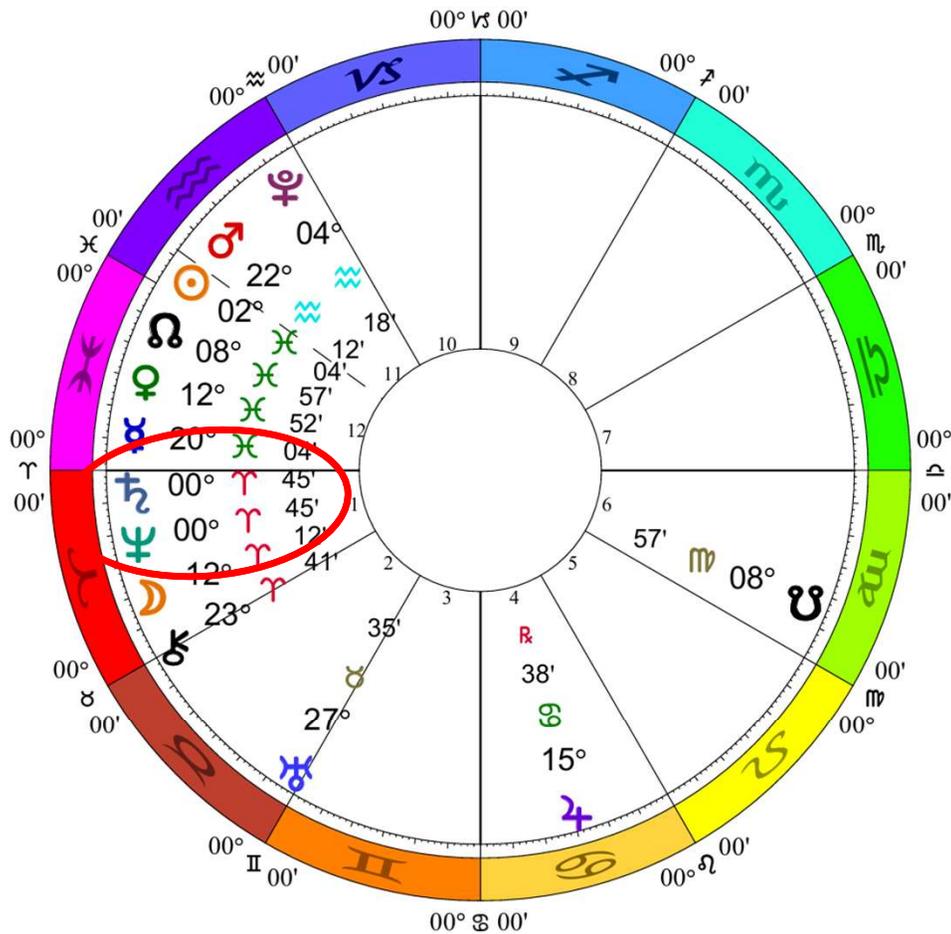

HYPOTHESIS: Hard aspects frequently result in action while soft aspects often indicate seeds planted for the future. Also, the aspects at the new moon set a tone that can be underlying throughout the entire lunar month. Additionally, many of the children born this day will express remarkable wisdom when they grow up.

Events according to Microsoft Copilot:

- Relatively calm day in the world
- Protests in Greenland and Denmark against the USA (January 17)
- Intensifying protests in Minneapolis, Minnesota

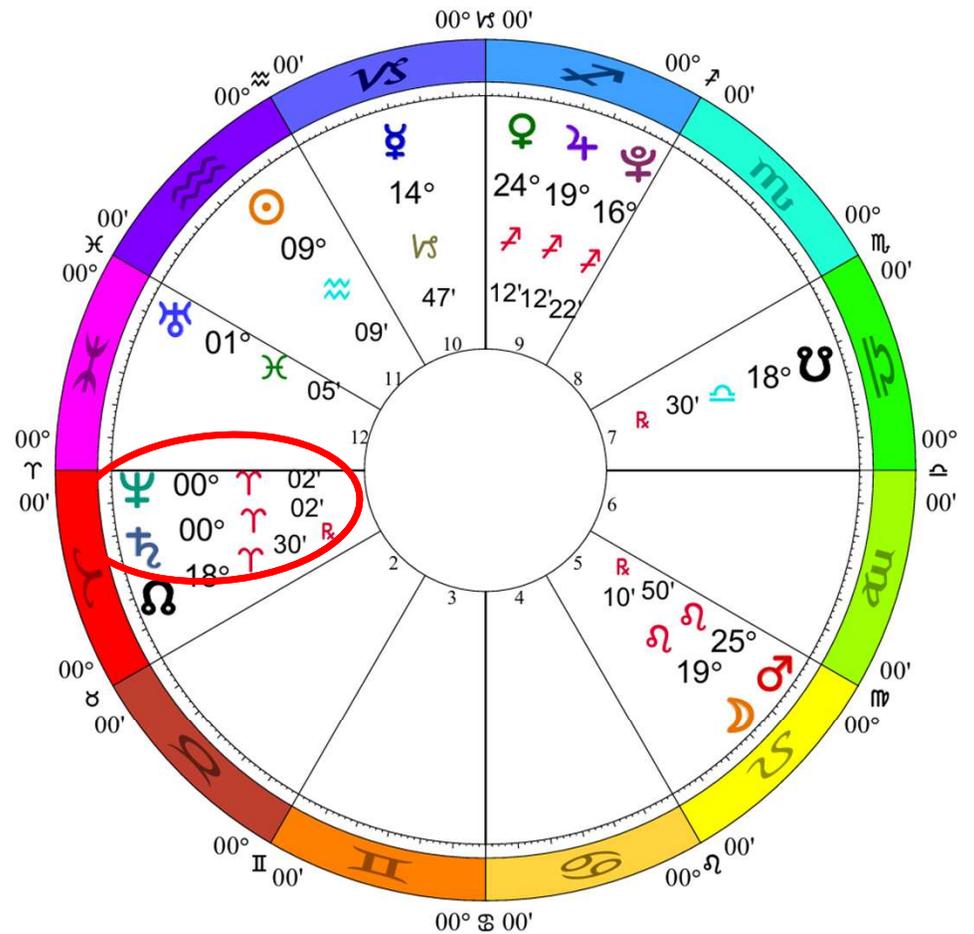

Also, speaking on a more personal level, there are those who will feel themselves opening up more on a spiritual level as a result of the harmony of this new moon. The impact of this new moon lingers, and some will experience oneness and channel that still, small voice within. And they will realize that the spiritual world is what is real and that the exterior world with all its cruelty and deception and greed is only an illusion. They will realize the words of Joel 3:1 - Sons and daughters will prophecy, old men will dream dreams, and young men shall have visions. And perhaps this is the real solution to all the difficulty the world is in now.

Declination, Transit Transits; Gainesville, Florida 03-20-2025; natal

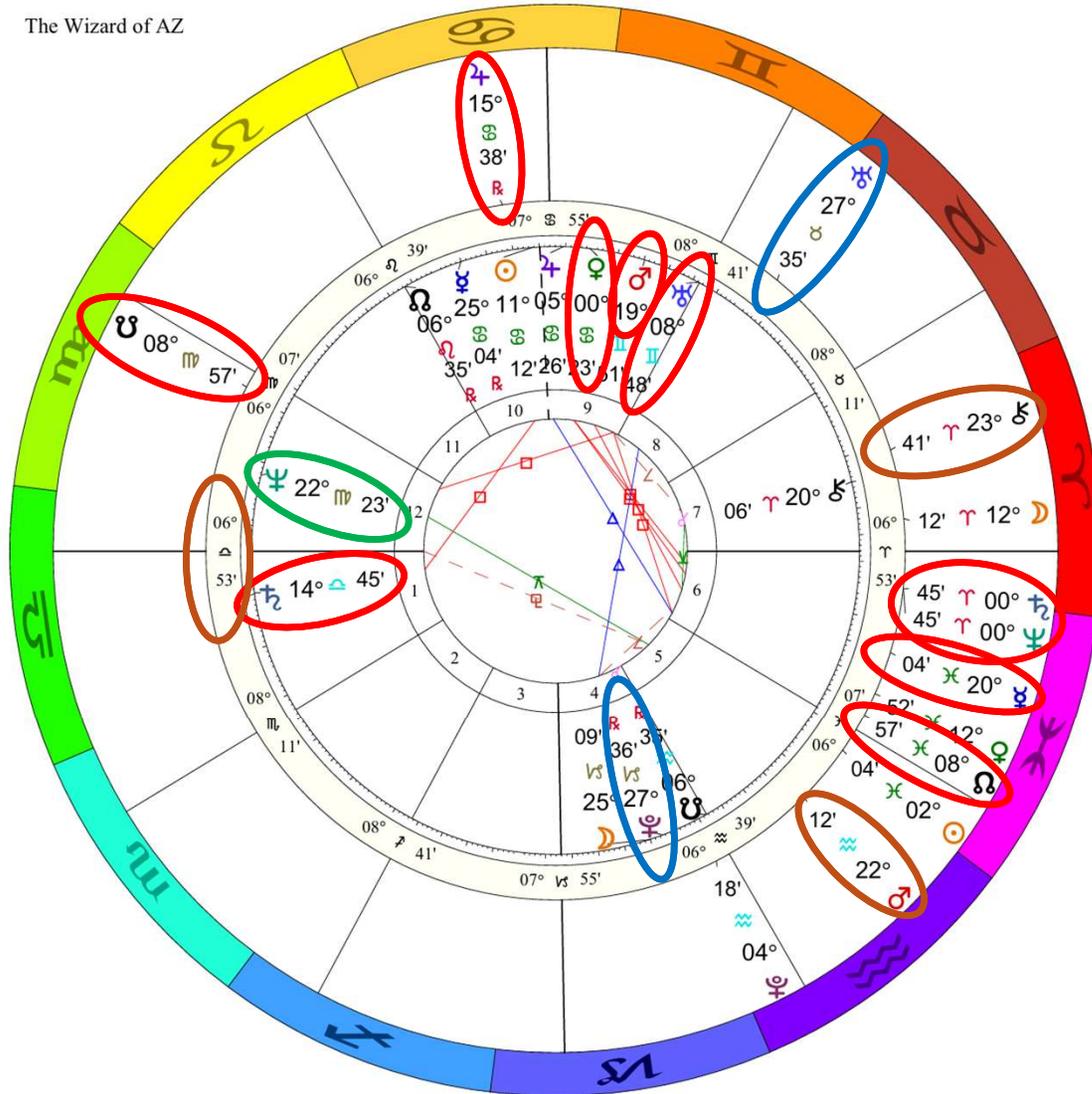

When Neptune crosses over zero declination, it denotes a change in the social myth. With both Saturn and Neptune crossing together, expect restructuring of myths.

Declination, Transit Transits; Gainesville, Florida 03-20-2024; natal

Saturn and Neptune will both cross 0° declination shortly after the February 20, 2026, conjunction – Saturn on March 26 and Neptune on April 24, September 16, & February 26 (2027).

Will JD Vance become president by the end of August? That is one possibility as Trump is rather star-crossed during this period while Vance's transits and progressions are very favorable for his status. However, it is also possible that Vance's status simply improves while remaining vice-president.

Would a President Vance be an improvement over President Trump? Not if your stance on the issues is different from his! (ontheissues.org)

- **Opposes a woman's right to choose an abortion.**
- **Opposes diversity, equity, and inclusion.**
- **Opposes transgender and LGBTQ rights.**
- **Believes America was founded on Christian values.**
- **Opposes expanding ObamaCare.**
- **Favors vouchers for school choice.**
- **Believes businesses have a right to pollute.**
- **Believes stricter punishment reduces crime.**
- **Favors absolute right to gun ownership.**
- **Opposes higher taxes on the wealthy.**
- **Opposes pathway to citizenship for illegal aliens.**
- **Opposes free trade.**
- **Opposes the UN and globalism**
- **Opposes making voter registration easier.**
- **Opposes prioritizing green energy.**
- **Believes marijuana is a gateway drug.**

And from an astrological perspective, I am very concerned that Vance's chart activates America's Uranus in Gemini, and with three Uranus returns coming up, that makes it even more likely that a President Vance would get us into a war, civil or foreign.

Summary:

- The impact of the Saturn/Neptune conjunction goes back to at least February 20, 2025 and probably even before that. In other words, much of the disruption we've seen in America and the world since Trump's inauguration is related to this conjunction (among other aspects), and the February 20, 2026, date is only the culmination, not the beginning of the influence of this conjunction.
- The invasion of Venezuela, the killing of Renee Good, Trump's capitulation at Davos, the killing of Alex Pretti, and the abduction of Nancy Guthrie were all impacted by the Saturn/Neptune conjunction.
- America is being hit particularly hard by this conjunction since it squares natal Venus exactly to the degree in the July 2, 1776, chart for America.
- This is a tsunami of a conjunction since the last Saturn/Neptune conjunction at the beginning of Aries (the World Point) occurred approximately six thousand years ago in 4361 BCE.
- Russia is expected to be impacted, but the full impact could unfold either slowly over the next few years, or it could happen suddenly. We just don't know which will be the case since obviously several other variables are also involved.

Summary:

- Aftershocks to this conjunction will occur in late March and April when first Saturn and then Neptune cross the celestial equator to move from southern to northern declination.
- A pile-up of seven planets in Aries at the April 17th new moon will impact America, Trump, NATO, the United Nations, the Federal Reserve, and the New York Stock Exchange.
- The second half of the year will be far more harmonious for the world than the first half which will continue to focus on the dissolution of structures.
- I call July 21st “The Great Harmony” because the late, great mundane astrologer Andre Barbault felt that it would be the most harmonious day of the century.
- However, a 2-month opposition from Saturn to the USA natal Saturn and to Trump’s natal Chiron during July and August will increase tension and restriction for both. Still, long lasting trines in both charts may provide a lifeline.

Summary:

- Transits and progressions to JD Vance's chart on July 21st suggest that his status will be elevated in some way around this time. Hence, it is possible, though not by any means a certainty, that Trump will no longer be in office by the end of this summer.
- Some people may prefer Trump to be replaced by anyone, but Vance's past record shows that he would also likely be a far-right leader.
- Even more worrisome is that the USA Uranus return is coming up in 2027 & 2028, and Vance's Chiron and Uranus are activating Uranus in the USA chart. This increases even further the likelihood of conflict either at home or abroad during those years.
- Additional long-term forecasts may be made by me at the end of August once it is seen how events play out between now and then, but for now all I can do is to wait for things to unfold in their own time. And for this past year, things have unfolded very much in line with what that the astrology of this time predicts.

The End
