With the North Lunar Node conjunct her Ascendant, Kamala Harris appears to be a person with a destiny. Furthermore, with the North Lunar Node in in an air sign, she represents the future that began in 2020 when Jupiter and Saturn started a 300-year cycle of conjunctions in air signs, and this year, too, as we continue 20 years of Pluto in Aquarius.

With Sun in Libra, she wants peaceful relationships, but with Moon in Aries, she will often take on the persona of a warrior.

Her family moved around a lot when she was a child, and her parents divorced when she was seven. The many places she's lived in is reflected in Uranus in the 4th House, and Pluto conjunct Venus in the 4th suggests some family trauma. A stern personal space may also be the cause of frequent staff turnovers while Vice-president.

With Chiron in the 10th House trine its Neptune ruler and opposite her 4th House planets, her challenge is to be a visionary healer and transcendent figure. However, if she fails at this, then she could wind up being wounded and wounding others. Nonetheless, she has great promise!

With her Sun in America's 1st House and in Libra, America's rising sign, she has an immediate rapport with many Americans. And with her Moon in America's 7th House, she engages well with foreign policy and foreign leaders.

But on the other hand, with her Sun and Moon both square America's Mercury and Moon, effective communication with the American people may be an ongoing problem, and she may at times appear cold and aloof and not as empathetic as she really is, There is a way forward through her Libra personality, but many American's may always have a love/hate relationship with her.

Transiting Saturn in her 10th House also puts a focus on her status and professional achievement. Additionally, transiting Saturn is conjunct her natal Chiron. At best, she will become a very transcendent and healing leader, and at worst, she will be wounded and may wound others in return.

A trine from transiting Venus to her Ascendant will also be a very beneficial outcome for her from this Lunar Eclipse.

In her progressed chart, Chiron has barely budged from its position at her birth. Hence, the influence of Chiron has been a fixed constant throughout her life, and as a prosecutor she's had a history of punishing the wicked and healing the victims. With progressed Moon strongly trining her 10th House Chiron on Election Day, she could win.

Kamala Harris also has progressed Saturn nearing a conjunction with her Midheaven, and this, too, bodes well for an elevation of her status as she gets older.

 NATAL CHART

On Election Day, transiting Saturn will be in her 10th House and conjunct her natal Chiron. Additionally, transiting Sun will trine her natal Chiron on that day, and these, too, put a focus on her status. I expect her status to go up, but the Saturn/Chiron conjunction could go in either direction. Up if she rises to the occasion, and down if she doesn't.

So will Kamala Harris be America's next president? The more she rises to the occasion, the more likely it is that she will. Both her 10th House and her 10th House Chiron are being activated, and she has a variety of aspects in play that affect her status and that provide her the opportunity to be a healer and an extraordinarily transcendent leader, and for the sake of the country and the world, I hope that this is her future. But, again, this is only a weather report. The future is still ours and hers to choose!
